CANARA ROBECO

## WHAT IS DYNAMIC BOND FUND

### Flexible Portfolio Allocation

- A Dynamic Bond Fund allows the fund manager to switch between short and long term bonds depending on the macro economic scenario

### Benefit to the Investor

- The flexibility to realign the portfolio according to interest rate movements, gives the investor an opportunity to benefit irrespective of interest rate movements
- The flexible mandate also helps in protecting the investor from market volatility

### Investor Suitability

- This fund is suitable for investors with medium to long time horizon
