I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- I. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- II. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- III. The past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- IV. Canara Robeco Fixed Maturity Plan – Series 6 - 13 Months (Plan A) is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or returns.
- V. Canara Bank and Robeco Groep N. V., being the Sponsors, are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10 Lacs made by it towards setting up the Canara Robeco Fund.
- VI. The present scheme is not a guaranteed or assured return scheme.

Scheme specific Risk Factors:

I. Risks associated with investments in Fixed Income Securities

Interest - Rate Risk: Fixed income securities such as government bonds, corporate bonds, and money market instruments and derivatives run price - risk or interest - rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re - investment Risk: Investments in fixed income securities carry re - investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Credit Risk: This is the risk associated with the issuer of a debenture / bond or a money market instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

II. Risks associated with investments in derivatives

- The Scheme may invest in derivative products in accordance with and to the extent permitted under the Regulations and by RBI. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a

high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.

- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- Investment in derivatives also requires the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue.
- The options buyer's risk is limited to the premium paid, while the risk of an options writer is unlimited. However the gains of an options writer are limited to the premiums earned.
- The exchange may impose restrictions on exercise of options and may also restrict the exercise of options at certain times in specified circumstances and this could impact the value of the portfolio.
- The writer of a put option bears the risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.
- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counterparty at the then prevailing (possibly unfavourable) market price.
- Derivatives also carry a market liquidity risk where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- Where derivatives are used for hedging, such use may involve a basis risk where the instrument used as a hedge does not match the movement in the instrument / underlying asset being hedged. The risk may be inter - related also e.g. interest rate movements can affect equity prices, which could influence specific issuer / industry assets.
- Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor.
- Execution of investment strategies depends upon the ability of the fund manager(s) to identify such opportunities which may not be available at all times. Identification and execution of the strategies to be pursued by the fund manager(s) involve uncertainty and decision of fund manager(s) may not always be profitable. No assurance can be given that the fund manager(s) will be able to identify or execute such strategies.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The following are certain additional risks involved with use of fixed income derivatives

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Liquidity risk: During the life of the derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme(s) and individual Plan(s) under the Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s)/Plan(s) shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 business days of the date of closure of the New Fund Offer

C. SPECIAL CONSIDERATIONS

The liquidity of the Scheme's investments inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemptions or of a restructuring of the Scheme's investment portfolio, there may be delays in the redemption of units. Please refer to the section on "Right to limit repurchases" and "Suspension of sales/repurchase/switching options of the units" in this document.

The value of the Scheme investments may be affected by factors affecting capital markets generally, such as price and volume volatility in the stock markets, interest rates, currency exchange rates, foreign investments, changes in government policy, political, economic or other developments and closure of the stock exchanges.

The NAV of the Scheme will be sensitive to changes in Interest /Bank / Prime Lending Rates. In case of investment in Money Market Instruments and in Central / State Govt. Securities by the Scheme, an increase in the Interest / Bank / Prime Lending Rates will impact the market value of existing investments leading to decrease in the Scheme's NAV.

Debt securities are subject to the risk of an issuer's inability to meet principal and interest payments on the obligations (Credit Risk). Debt securities may also be subject to price volatility due to such factors as interest sensitivity, market perception or creditworthiness of the issuer and general market liquidity (Market Risk). While it is the intention of the Investment Manager to invest primarily in highly rated debt securities, the Scheme may from time to time invest in higher yielding, lower rated securities but not below investment grade and also in un-rated securities subject to provisions and restrictions laid down by SEBI, which would enhance the degree of risk.

Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme.

The NAV of the scheme may be affected by the changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.

A Unit Holder may invest in the schemes and acquire a substantial portion of the scheme units. The repurchase of units by the Unit Holder may have an adverse impact on the units of the schemes, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.

The tax benefits described in this Scheme Information Document are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor is advised to consult his/her own professional tax advisor.

The AMC, may consider the overall level of risk of the portfolio, invest in lower rated / un-rated securities, offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute risk of the portfolio.

It may be noted that no prior intimation/indication would be given to investors when the composition asset allocation pattern of the Scheme undergo changes within the permitted band as mentioned in this document.

Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, investment or any other matters. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. Canara Robeco Mutual Fund will not be responsible for any loss of tax benefits in the event of winding up of the Scheme or for any amendment in tax laws that may affect the tax benefits available under the Scheme. The tax benefits are based on the present laws and rules in force.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Canara Robeco Fixed Maturity Plan – Series 6 – 13 Months (Plan A) is a close ended Fixed Maturity Debt Scheme

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

To seek to generate income by investing in a portfolio of debt and money market instruments maturing on or before the maturity of the Scheme. However, there can be no assurance that the investment objective of the scheme will be realized.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The Asset Allocation pattern of the Scheme under normal circumstances would be as under:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Debt Securities, Central/State Government Securities and Money Market Instruments	100%		Low to Medium

- The scheme does not intend to invest in securitised debt instruments.
- The scheme will invest in above instruments in line with its duration

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavour to complete the rebalancing within 10 days. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action. However, at all times the AMC shall endeavour to ensure that the portfolio would adhere to the overall investment objective of the schemes.

D. Where will the scheme invest?

Subject to the Regulations, the corpus of the Scheme may be invested in all or any one of (but not exclusively) the following securities:

Debt Instruments - include Govt. of India securities (zero coupon or coupon bearing Bonds), State Govt. Bonds, Bonds issued by local Govt, Govt. Agencies and other statutory bodies (with or without Govt. Guarantee), Bonds of Public Sector Undertakings, Debentures issued by public, private sector undertakings, Financial Institutions with or without ratings, Usance Bills (Bill of Exchange drawn on a term governed by the usage in trade or between the companies involved) and other Domestic Instruments either listed or unlisted having a maturity of more than 365 days.

Money Market Instruments - include Commercial Papers, Commercial Bills, Treasury Bills, Government Securities having an un-expired maturity up to one year, Call or Notice Money, Certificate of Deposit, Usance Bills and any other like instruments as specified by the Reserve Bank of India / SEBI, from time to time. The Scheme proposes to invest in Collateralised Borrowing Lending Obligation (CBLO), Repos Treasury Bills, MIBOR Instruments, CPs, CDs and Govt. Securities having un-expired maturity up to one year. These securities may be listed or unlisted.

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through initial public offerings (IPOs), secondary market operations, private placement or rights offers. All investments in securities whether privately placed or otherwise will be in line with SEBI guidelines as applicable and the investment objectives and policies of the Scheme. Investment in unrated securities will be in accordance with SEBI guidelines as applicable.

The AMC may from time to time for a short term period under exceptional circumstances on defensive consideration modify / alter the investment pattern / asset allocation the intent being to protect the Net Asset Value of the Scheme & the interests of Unit Holders without seeking consent of the Unit Holders.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavour to complete the rebalancing within 10 days. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action. However, at all times the AMC shall endeavour to ensure that the portfolio would adhere to the overall investment objective of the schemes.

E. WHAT ARE THE INVESTMENT STRATEGIES?**Investment Focus and strategy:**

The Scheme will invest in debt securities in order to generate competitive returns consistently as per the investment objectives of the scheme. The Schemes may invest some portion of the portfolio in Money Market Instruments. The remaining investment will be made in securities of varying maturity. However, the maturity of the portfolio will normally on or before the maturity period of the respective plans in the series.

The Scheme may also use various derivatives and hedging products from time to time as would be available and permitted by SEBI in an attempt to protect the value of the portfolio and enhance unit holder's interest.

In addition, the Investment Manager will monitor the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The Investment Manager would use this analysis to assess the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Apart from investment restrictions under SEBI (MF) Regulations, the Fund does not presently intend to follow any internal norms vis-a-vis limiting exposure to a particular security or sector etc. However, the Fund may consider imposing any restrictions depending on the changes in the investment environment from time to time.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component (70% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Collateralised Borrowing & Lending Obligations (CBLO)
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them.

Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing as on 25th January, 2011 on some of the instruments:-

Instrument	Current Yield Range
CBLO	5.50 - 6.50%
Repo	5.00 - 6.45%
3m Tbill	7.15 - 7.25%
1y Tbill	7.53 - 7.63%
10y G Sec	8.10 - 8.20%
3m PSU Bank CD	9.25 - 9.35%
3m NBFC CP	9.65 - 9.75%
3m Manufacturing Co. CP	9.48 - 9.63%
1y PSU Bank CD	9.75 - 9.85%
1y NBFC CP	10.20 - 10.30%
1y Manufacturing Co. CP	10.10 - 10.20%
5y AAA Institutional Bond	9.18 - 9.23%
10y AAA Institutional Bond	9.08 - 9.13%

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

Risk Control Mechanism

Since investing requires disciplined risk management, in order to protect the interests of investors, the AMC would incorporate adequate safeguards for controlling risks in the portfolio. As a prudent measure, the AMC has broad internal investment norms and investments made through the scheme would be in accordance with the investment objectives of the schemes and provisions of SEBI Regulations. Where required, scheme specific guidelines are also in place.

Debt Securities

Concentration of risk is mitigated by defining issuer limits. Rigorous in-depth credit evaluation of the issuers will be conducted by the investment team before making investments. As part of credit evaluation, a study on the operating environment, past track record as well as future prospects of the issuer, short as well as long term financial health of the issuer will be carried out. The AMC will be guided by the ratings of accredited agencies such as CRISIL, CARE, ICRA etc. as well as the internal norms for credit exposure

Unique Differential Positioning of Canara Robeco Fixed Maturity Plan – Series 6 – 13 Months (Plan A)

There is no difference with respect to positioning of the product compared to our existing Canara Robeco Fixed Maturity Plan 13 Months – Plan A and Canara Robeco Fixed Maturity Plan 13 Months – Plan B. However, these Schemes are close ended and not available for subscription currently. Thus, the Fund does not have any comparable product open for subscription at this juncture.

Procedure followed for investment decisions:

The Fund Manager of the Scheme is responsible for making buy / sell decisions for the Scheme's portfolio and seeks to develop a well diversified portfolio taking into account the asset allocation patterns of various schemes along with risks that are associated with such investments. The investment decisions are made on an ongoing basis keeping in view the market conditions and other regulatory aspects. The AMC has constituted an Investment Committee, currently comprising of the CEO, COO, Head of Risk Management, Head of Equities, Head of Fixed Income that meets at periodic intervals. The Investment Committee's role is to formulate broad investment strategies for the Scheme, review the performance of the Scheme and the general market outlook. The Fund Manager is responsible for facilitating investment debate and a robust investment culture. The investment team would hold ongoing meetings, as well as additional ad-hoc meetings as needed, to explore the investment thesis. It is the responsibility of the AMC to seek to ensure that the investments are made as per the Regulatory guidelines, the investment objective of the Scheme and in the interest of the Unit holders of the Scheme. The AMC will keep a record of all investment decisions in accordance with the guidelines issued by SEBI.

Portfolio Turnover Policy:

Purchase and Sale of securities attract transaction costs of the nature of brokerage, stamp duty, custodian transaction charges etc. The portfolio turnover is essential to regularly explore trading opportunities to optimise returns for the Scheme and enable portfolio restructuring when required.

The Scheme will manage its portfolio taking into account the associated risks (such as interest / liquidity perceived / expected, so as to minimise the risks by using adequate risk management techniques. The portfolio turnover policy will be aimed at maximising the returns/growth.

In terms of the objective of the scheme, the investments are made in securities having an unexpired maturity on or before the maturity period of the plans.

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations, 1996, the cost of investments acquired or purchased shall include all such costs incurred for effecting the transaction while the sale proceeds of investment sold or redeemed shall be net of all such costs incurred for effecting the sale transactions and shall form part of the purchase or the sale value of investments.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavour to complete the rebalancing within 10 days. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action. However, at all times the AMC shall endeavour to ensure that the portfolio would adhere to the overall investment objective of the schemes.

- The scheme does not intend to invest in securitised debt instruments.
- The scheme will invest in above instruments in line with its duration

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavour to complete the rebalancing within 10 days. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action. However, at all times the AMC shall endeavour to ensure that the portfolio would adhere to the overall investment objective of the schemes.

(iii) Terms of Issue

A. Listing

The units of the Scheme will be listed on the Wholesale Debt Market Segment of the National Stock Exchange of India Ltd. (NSE) within 5 business days from the date of allotment. The Mutual Fund may

at its sole discretion list the units under the Scheme on any other recognized Stock Exchange(s) at a later date. As mandated by SEBI, The Board of Trustees would ensure receipt of in-principle approval from National Stock Exchange of India Limited for listing before the launch of the scheme.

B. Repurchase / Redemption

Since the units issued under the scheme are listed on the Stock Exchange/s, no Repurchase Facility is offered by the Fund. Investors seeking liquidity may offer their units for sale through the Stock Exchange. However, the fund shall redeem all the units held by the unit holders on the day of maturity of the scheme at the applicable NAV.

Unit holder may either request for mailing of the redemption proceeds to his/her address or collection of the same from the Sales Offices of the AMC (Investor Relations Centre), where it was deposited for repurchase.

	<p>are not transferable.</p> <p>In view of the same, additions/ deletion of names will not be allowed under any folio of the Scheme.</p> <p>The above provisions in respect of deletion of names will not be applicable in case of death of unitholder (in respect of joint holdings) as this is treated as transmission of units and not transfer.</p> <p>Unit Certificates:</p> <p>Normally no unit certificates will be issued under the Scheme. However, if the unitholder so desires, the AMC shall issue a unit certificate to the unitholder within 30 days of the receipt of request for the certificate. The cost of stamp duty paid for issuing the unit certificate will form part of the annual ongoing expenses and/or may be recovered from the Unitholder. However, such unit certificates are not tradable with the Stock Exchange.</p> <p>Dematerialization of Units:</p> <p>The unitholders can dematerialise their holding at any time by making an application to their Depository Participant by filling up the Dematerialisation Request Form (DRF). The AMC shall issue units in demat form to the unitholder within 2 working days of receipt of request from unitholder.</p> <p>The same number of Units held in the physical mode shall be continued in the demat mode.</p> <p>Rematerialization of Demat Units:</p> <p>The unitholders who converted their units in demat mode may also rematerialize their units. The request for rematerialising the demat Units may be given to the respective Depository Participant (DP) of the investor. On receiving the confirmation of Remat Units balance, account statement for the physical Units shall be issued. The same number of Units held in the demat mode shall be continued in the physical mode. Rematerialization of demat Units shall be processed within the thirty days or such other days as may be stipulated under SEBI Regulations from the date of receipt of such a request, provided it is complete and valid in all respects.</p> <p>All Units within an Option in a Plan / Scheme shall rank pari passu as to assets, earnings and the receipt of dividend distributions, if any, as may be declared by the Trustee.</p> <p>Default Option:</p> <p>In case of valid applications received without indicating any choice of options, it will be considered as option for Growth Option and processed accordingly.</p> <p>In case of incorrect furnishing of DP account details, the AMC shall issue Statement of Account specifying the units allotted to investor within 30 days from the closure of the NFO.</p>
Refund	If application is rejected, full amount will be refunded within 5 business days of closure of NFO. If refunded later than 5 business days, interest @

	<p>15% p.a. for delay period will be paid and charged to the AMC.</p> <p>In the event of Applications not being complete in all respects and the consequent non allotment, the Fund will refund the Application Money to the applicant(s), by Post and by way of Cheque or Demand Draft marked 'A/c Payee'.</p>

B. ONGOING OFFER DETAILS

<p>Ongoing Offer Period</p> <p>This is the date from which the scheme will open for trading on the National Stock Exchange after the closure of the NFO period.</p>	<p>Being a close-ended Scheme, investors can subscribe to the Units of the Scheme during the New Fund Offer Period only and the scheme will not reopen for subscriptions after the closure of NFO.</p>
<p>Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors.</p> <p>This is the price you need to pay for purchase/switch-in.</p>	<p>Not applicable. Being close ended Schemes, investors can subscribe to Units of the Schemes through the Mutual Fund/AMC only during the NFO period. However, once the Units are listed, an investor can buy/sell Units of the Schemes on a continuous basis on the NSE and/or any other Stock Exchange like any other publicly traded stock.</p>
<p>Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors.</p> <p>This is the price you will receive for redemptions/switch outs.</p>	<p>Being a close ended Scheme, Investors can subscribe to the Units of the Scheme during the New Fund Offer Period only and the Scheme will not re-open for subscriptions after the closure of NFO. The redemption facility would be provided only on Maturity.</p> <p>However, subsequent to closure of NFO and upon listing of Units on Exchange, buying or selling of Units by Unitholders / Investors can be made on the Exchange. Units can be bought or sold like any other listed stock on the Exchange at prevailing market prices.</p> <p>The minimum number of Units that can be bought or sold on the Exchange is one Unit. The Units' market prices may be at a premium/discount to its NAV. Dealings by the Unitholders / Investors on the Exchange will be also subject to Exchange Rules and Regulations.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>After close of NFO Period, the Fund will not provide facility for subscription / redemption /switches, and hence cut-off timing provisions do not apply.</p> <p>In case of switch-out proposed for investing the redemption proceeds upon maturity in another scheme of the Fund, the switch-out request will be accepted upto 3.00 p.m. on the Maturity Date.</p> <p>Dealings by the Unit holders / Investors on Exchange will be subject to Rules & Regulations generating the concerned Stock Exchange.</p>
<p>Where can the applications for purchase/redemption switches be submitted?</p>	<p>The Units will not be available for subscription/switch-in after the closure of the NFO period.</p> <p>Redemption/Switch-out is not permitted during the term of the Schemes.</p>

	<p>However, once the Units are listed, the Units can be sold by making such request in the prescribed form to the DP.</p> <p>Switch-out applications from the Schemes to any other scheme(s) of the Mutual Fund on the Maturity Date can be made at the Sales Offices of the AMC or Official Points of Acceptance of the R & T Agent.</p>
Minimum amount for purchase/redemption/switches	<p>Not applicable, as purchase/redemption/switch-out is not permitted during the term of the Schemes. The listed units will have to be sold in lots of 1(one) unit or such other marketable lots as prescribed by the Exchange, from time to time.</p>
Listing	<p>The Units of the Schemes will be listed on the Capital Market Segment of NSE within 5 business days from the date of allotment. NSE has vide its letter no. NSE/LIST/150978 – N dated November 08, 2010 provided in-principle approval to the Mutual Fund for listing of the Units of the Schemes on NSE.</p> <p>The Mutual Fund may at its sole discretion list the Units under the respective Schemes on any other recognized Stock Exchange(s) at a later date. The Trustee shall issue an addendum for listing of Units on any other recognised Stock Exchange in India, and a public notice to this effect will be given in two newspapers and also displayed at the Investor Service Centres. All regulatory procedures will be followed in this regard.</p> <p>An investor can buy/sell Units on a continuous basis on NSE and/or any other Stock Exchange(s) on which the Units are listed during the trading hours like any other publicly traded stock, until the date of issue of notice by the AMC for fixing the record date for determining the Unit holders whose name(s) appear on the list of beneficial owners as per the Depository's (NSDL/CDSL) records for the purpose of redemption of Units on maturity/final redemption date. The trading of Units on NSE and/or any other Stock Exchange(s) on which the Units are listed will automatically get suspended from the date of issuance of the said notice and also no off-market trades shall be permitted by the Depositories. The price of the Units in the market will depend on demand and supply at that point of time. There is no minimum investment, although Units are purchased in round lots of 1.</p> <p>As the Stock Exchange(s) do not allow trading of fractional units, Units may be allotted only in integers by rounding off the Units allotted to the lower integer and the balance amount may be refunded to the investor.</p> <p>Transaction Cost: Though there will be no entry/exit load for buying/selling the Units from/to the secondary market, the investors will have to bear the other costs related to transacting in the secondary market, e.g. brokerage, service tax, etc.</p> <p>The Schemes will be de-listed after their respective tenures. The AMC/Trustee will initiate the delisting procedure prior to the date of maturity. The Unit holders will not be able to trade in stock exchange once the Schemes are delisted.</p>
