I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- I. Mutual Fund Investments are subject to market risks, read all scheme related documents carefully.
- II. Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
- III. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- IV. As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- V. The past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- VI. The name(s) of the Scheme(s) do not in any manner indicate either the quality of the Scheme(s), its future prospects or returns.
- VII. Canara Bank and Robeco Groep N. V., being the Sponsors, are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10 Lacs made by it towards setting up the Canara Robeco Mutual Fund.
- VIII. The present scheme(s) is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

Some of the specific risk factors related to the Scheme(s) include, but are not limited to the following:

I. Risks associated with investment in Equity and Equity related instruments

Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted Securities may be affected if they have to be sold prior to the target date for divestment. All investments involve risks and there can be no guarantee against loss resulting from an investment in any share of the Scheme, nor can there be any assurance that the Scheme's investment objective will be attained in respect of its overall performance. In certain circumstances the right of the investors of the Scheme may be suspended. Consequently, the NAVs of units issued under the Scheme may be adversely affected.

Further, the Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities including debt securities, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law / policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

The Fund Manager of the Scheme may invest in the Securities of smaller, lesser-known companies. These investments may involve greater risk and the possibility of greater portfolio price volatility than investing in larger, more mature or better-known firms. Amongst other reasons for the greater price volatility of Securities of small companies and unseasoned stocks are the less certain growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks, and the greater sensitivity of small companies to changing economic conditions. For example, these companies are associated with higher investment risk than that normally associated with larger firms due to the greater business risks of small size and limited product lines, markets, distribution channels and financial and managerial resources. Such

Securities, including those of newer or recently restructured companies or those which may have experienced financial difficulties, may be more volatile in price than larger capitalized stocks

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment

The value of the Scheme investments may be affected by factors affecting capital markets generally, such as price and volume volatility in the stock markets, interest rates, currency exchange rates, foreign investments, changes in government policy, political, economic or other developments and closure of the stock exchanges.

Investment made in unlisted equity or equity-related securities may only be realisable upon listing of these securities.

Trading volumes, settlement periods and transfer procedures may restrict liquidity of investments in equity and equity related securities. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The length of the settlement may affect the Scheme in the event the Scheme has to meet large number of redemption.

II. Risks associated with investments in Fixed Income Securities

Price-Risk or Interest - Rate Risk: Fixed income securities such as government bonds, corporate bonds debentures, and money market instruments and derivatives run price - risk or interest - rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. It also depends upon the yield level at which the security is being traded.

Re - investment Risk: Investments in fixed income securities may carry re - investment risk as interest rates prevailing on the interest or coupon payment or maturity due dates may differ from the original coupon of the bond. Consequently, The proceeds may get invested at a lower rate.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

Pre-payment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio

Credit Risk: In simple terms this risk means that the issuer of a debenture / bond or a money market instrument may default on interest payments or in paying back the principal amount on maturity. Even when there is no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted

security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

III. Risk associated with investing in Derivatives

As and when Scheme trades in the derivatives market, there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "counter party") to comply with the terms of the derivatives contract. Other risk in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Derivatives can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involve uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies. The risk associated with the use of derivatives is different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic or market conditions than other types of investments and could result in the losses that significantly exceed the Scheme's original investment. Certain derivatives may give rise to a form of leverage. Due to the low margin deposits normally required in trading financial derivative instruments, an extremely high degree of leverage is typical for trading in financial derivative instruments. As a result, the Scheme may be more volatile than if the Scheme had not been leveraged because the leverage tends to exaggerate the effect of any increase or decrease in the value of the Scheme's portfolio. A relatively small price movement in a derivative contract may result in substantial losses to the investor.

Derivatives are also subject to the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. The use of derivatives for hedging or risk management purposes or to increase income or gain may not be successful; resulting in losses to the Scheme and the cost of such strategies may reduce the Scheme's returns and increase the Scheme's potential for loss.

The Scheme may use derivatives to hedge market and currency risk, and for the purposes of efficient portfolio management. The use of derivatives may expose the Scheme to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions are geared.

The price at which credit default swaps trades may differ from the price of the credit default swaps' referenced security. In adverse market conditions, the basis (difference between the spread bonds and the spread of credit default swaps) can be significantly more volatile than the credit default swaps' referenced securities.

Trading in derivatives has the following risks:

- a) An exposure to derivatives in excess of the hedging requirements can lead to losses.
- b) An exposure to derivatives can also limit the profits from a genuine investment transaction.
- c) Efficiency of a derivative market depends on the development of a liquid and efficient market for underlying securities.

d) Particular Risks of Exchange Traded Derivative Transactions

The securities exchange on which the shares of the Scheme may be listed may have the right to suspend or limit trading in all securities which it lists. Such a suspension would expose the Scheme to losses and delays in its ability to redeem shares of the Scheme.

e) Stock Market Fluctuations

Investors may note that the value of their investment may fall as well as rise and they may get back less than they originally invested. The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.

f) Dividends

The Scheme may distribute not only investment income, but also realised capital gains or capital. Where capital is distributed, this will result in a corresponding reduction in the value of shares of the Scheme, and a reduction in the potential for long-term capital growth.

g) Warrants

The Scheme may invest in warrants, the values of these warrants are likely to fluctuate more than the prices of the underlying securities because of the greater volatility of warrant prices.

h) Futures and Options

The Scheme may use options and futures on securities, indices and interest rates for the purpose of efficient portfolio management.

Transactions in futures and options carry a high degree of risk. A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

i) Listing

In case the shares of the Scheme are listed, the exchanges on which those shares are listed will have no responsibility for the contents of any prospectus issued by the Scheme or will make no representations as to its accuracy or completeness and expressly disclaim any liability whatsoever for any kind of loss arising from or in reliance upon any part of any such prospectus.

IV. Risks Associated with investing in Money Market Instruments

- Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's inability to meet interest and principal payments.
- Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, the general level of market liquidity and market perception of creditworthiness of the issuer of such instruments.
- The NAV of the Units, to the extent that the corpus of the Scheme is invested in money market instruments, will be affected by changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline.

V. Risk associated with Securities Lending

Securities lending may involve the risk of default on the part of the borrower. However, this is unlikely to happen if the stock lending is carried out for stocks which are in dematerialised form and through an authorised stock lending scheme, subject to appropriate Regulations. The Investment Manager perceives such situations to be exceptional in nature. Although the Stock Market in India is still developing, considering the good demand for listed / quoted Equity Shares of reputed companies, the Scheme(s) may choose to meet repurchase needs through temporary borrowings, within the permissible limits.

VI. Other Risks

In the event of substantial investment by the Sponsor/s, or its associates in the Scheme(s), any redemption by these entities may have an impact on the performance of the Scheme(s)

Canara Robeco Mutual Fund will not be responsible for any loss of tax benefits in the event of winding up of the Scheme(s) or for any amendments in the tax laws that may affect the tax benefits available under the Scheme(s). The tax benefits are based on the present laws and rules in force.

Canara Robeco Large Cap+ Fund is an open ended equity fund investing in the top 150 companies by market capitalization and thus will carry less risk as compared to a mid cap / thematic equity fund. The underlying companies will be more liquid and also the access to information for these companies is very high as the Institutional ownership in these companies is

generally large. The Fund will aim to have concentrated exposures in the stocks which are high conviction ideas and are fitting in the Fundamental and Quantitative Parameters.

Risk profile and Control Measures

Please refer to Section I-A Risk Factors for details on Risk Profile pertaining to the Scheme.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme/Plan shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest / redeem / hold Units.
- Neither this Scheme Information Document, Statement of Additional Information nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document or Statement of Additional Information in certain jurisdictions may be restricted or totally prohibited due to registration requirements and accordingly, persons who come into possession of this Scheme Information Document or Statement of Additional Information are required to inform themselves about and to observe any such restrictions and / or legal compliance requirements.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.
- Mutual Fund, their Trustee, AMC, their directors, their employees & Sponsors shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in 'Statement of Additional Information ('SAI')'.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. Mutual Fund, their Trustee, AMC, their directors, their employees & Sponsors shall not be liable for any such tax consequences that may arise due to such redemptions.
- The liquidity of the Scheme's investments inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemptions or of a restructuring of the Scheme's investment portfolio, there may be delays in the redemption of units. Please refer to the section on "Right to limit repurchases".
- The value of the Scheme/s investments may be affected by factors affecting capital markets generally, such as price and volume volatility in the stock markets, interest rates, currency exchange rates, foreign investments, changes in government policy, political, economic or other developments and closure of the stock exchanges. The NAV of the Scheme will be sensitive to changes in Interest / Bank / Prime Lending Rates. In case of investment in Money Market Instruments and in Central / State Govt. Securities by the Scheme, an increase in the Interest / Bank / Prime Lending Rates will impact the market value of existing investments leading to decrease in the Scheme's NAV.

- Debt securities are subject to the risk of an issuer's inability to meet principal and interest payments on the obligations (Credit Risk). Debt securities may also be subject to price volatility due to such factors as interest sensitivity, market perception or creditworthiness of the issuer and general market liquidity (Market Risk). While it is the intention of the Investment Manager to invest primarily in highly rated debt securities, the Scheme may from time to time invest in higher yielding, lower rated securities but not below investment grade and also in un-rated securities subject to provisions and restrictions laid down by SEBI, which would enhance the degree of risk. Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme. The NAV of the scheme may be affected by the changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures. If a Unit Holder invests in the schemes and acquire a substantial portion of the scheme units. The repurchase of units by the Unit Holder may have an adverse impact on the units of the schemes, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders Investors should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor is advised to consult his/her own professional tax advisor.
- The NAV of the scheme may be affected by the changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.
- If a Unit holder invests in the schemes and acquire a substantial portion of the scheme units. The repurchase of units by the Unit Holder may have an adverse impact on the units of the schemes, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details there under with the following third parties:
 - a) RTA, Banks and/or authorized external third parties who are involved in transaction processing, dispatching etc., of the Unitholder's investment in the Scheme;
 - b) Distributors or sub-brokers through whom the applications are received for the Scheme;
 - c) Any other organizations for compliance with any legal or regulatory requirements or to verify the identity of the Unitholders for complying with anti-money laundering requirements.
- The AMC may consider the overall level of risk of the portfolio, invest in lower rated / un-rated securities, offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute risk of the portfolio.
- Any disruption in the normal functioning of the Debt market or extreme illiquidity in any one of the Scheme's Securities, may affect the ability of The Fund Manager to buy or sell freely in the market. In the event of a large number of repurchase requests, the time taken by the Scheme for repurchase may become significant.
- It may be noted that no prior intimation/indication would be given to investors when the composition asset allocation pattern of the Scheme undergo changes within the permitted band as mentioned in this document. In the event of substantial investment by the Sponsors and its associates in the scheme of the Mutual Fund, redemption of units by these entities may have an impact on the performance of the Scheme.
- Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, investment or any other matters. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. Canara Robeco Mutual Fund will not be responsible for any loss of tax benefits in the event of winding up of the Scheme or for any amendment in tax laws that may affect the tax benefits available under the Scheme. The tax benefits are based on the present laws and rules in force.
- The Mutual Fund may disclose details of the Investor's account and transactions thereunder to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers / its agents, as may be necessary for the purpose of effecting payments to the Investor. Further, the Mutual Fund may disclose details of the Investor's account and transactions thereunder to any Regulatory/ Statutory entities as per the provisions of law.

- The AMC is the sub-Investment Manager in respect of Can bank (Offshore) Fund. The AMC sub-advises Robeco, Hongkong for Indian Securities pursuant to No Objection issued by SEBI vide its letter dated 29th June, 2011. The AMC is also the Portfolio Manager pursuant to Certificate of Registration INP000003740 dated 28th June, 2013 granted by SEBI.
- Controls and safeguards prescribed under the Regulation for managing the other business activities of AMC as mentioned above are being adhered to and there is no conflict of interest in managing the Schemes of the Fund and the said business activities of AMC. The AMC will ensure that any potential conflicts between other business activities and the Mutual Fund will be adequately addressed by (a) compliance with the requirements under Regulation 24(b) of the SEBI (Mutual Funds) Regulations, 1996 which require that the AMC cannot undertake any activity which is in conflict with the activities of the mutual fund; (b) ensuring that the fund manager(s) of each scheme of the Mutual Fund, will not play any role in the day-to-day operations of the other business activities, and the key investment team of the other business activities is not involved with the activities of the Mutual Fund; and (c) ensuring that there is no interse transfer of assets between the Mutual Fund and any account of the investor under Portfolio Management Services.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such Redemptions.
- Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU - IND and / or to freeze the folios of the investor(s), reject any application(s) / redemptions / allotment of units.

Know Your Customer (“KYC”): The need to ‘Know Your Customer’ is vital for the prevention of money laundering. The Trustees / AMC may seek information or obtain and retain documentation used to establish identity. It may re-verify identity and obtain any missing or additional information for this purpose.

The Trustees / AMC shall have absolute discretion to reject any application, or prevent further transactions by a Unit holder, if after due diligence, the Investor / Unit holder / a person making the payment on behalf of the Investor does not fulfill the requirements of the ‘Know Your Customer’ or the Trustees / AMC believes that the transaction is suspicious in nature as regards money laundering. In this behalf the Trustees / AMC reserves the right to reject any application and / or effect a mandatory Redemption of Units allotted to the Unit holder.

If after due diligence, the Trustees / AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules / guidelines issued thereunder by SEBI and / or the RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules / guidelines issued thereunder by SEBI and / or RBI without obtaining the prior approval of the Investor / Unit holder / any other person.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Canara Robeco Large Cap+ Fund is an Open Ended Equity Scheme

B. WHAT IS THE INVESTMENT OBJECTIVES OF THE SCHEME?

The Investment Objective of the fund is to provide capital appreciation by predominantly investing in companies having a large market capitalization. However, there can be no assurance that the investment objective of the scheme will be realized.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The Asset Allocation pattern of the Scheme under normal circumstances would be as under:

Instruments	Indicative Allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Large Cap equity and equity related instruments*	65	100	High
Domestic Debt and Money Market Instruments (including securitized debt up to 10% of AUM)	0	35	Low

*For the purpose of this Fund, Large Cap Companies are defined as those which are ranked from 1 to 150 on the basis of market capitalization at the time of investment. The ranking will be reviewed on the basis of market capitalisation of companies at the end of every calendar quarter.

Gross Notional Exposure by the Scheme in derivative instruments for the purpose of hedging and portfolio rebalancing shall not exceed 30% of the total Net Assets of Scheme.

The stock lending done by the Scheme (if any) shall not exceed 25% of the net assets of the Scheme as on the date of such lending. Intention to lend securities shall be in accordance with the guidelines on securities lending and borrowing scheme issued by SEBI from time to time.

The scheme shall not make any investments in foreign securitized debt.

Total of investments in Equity, debt securities (including securitized debt), money market instruments and gross notional exposure in derivatives shall not exceed 100% of the net assets of the scheme.

The above asset allocation pattern given for each scheme is not absolute and can vary depending upon the AMC's perception of the equity and money markets as well as the general view on interest rates. The asset allocation pattern indicated above may thus be altered substantially on defensive considerations. Subject to the SEBI Regulations, the asset allocation pattern of the schemes indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavor to complete the rebalancing within 10 days. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action. However, at all times the AMC shall endeavour to ensure that the portfolio would adhere to the overall investment objective of the schemes.

Exposure Limits in Derivatives and Stock Lending

The Scheme wise limits are as follows:

Name of the Scheme	Maximum Exposure for Investment in ADR/GDR/Foreign Securities	Maximum Gross Notional Exposure by the Scheme (s) in Derivative Instruments for the purpose of hedging and portfolio rebalancing	Maximum % Stock Lending
Canara Robeco Large Cap+ Fund	No investment will be made in Foreign Securities	30% of the Net Assets	25% of the Net Assets

Exposure to Derivatives:

The Schemes shall follow exposure limits on Derivatives as per the exposure limits permitted under the Regulations as per SEBI Circular No. DPND/Cir – 29/2005 dated 14th September 2005 and shall be within the limits prescribed by the Board of Trustees, as provided above. SEBI vide its circular no. DNP/Cir-29/2005 dated September 14, 2005 permitted mutual funds to participate in derivatives trading subject to the observance of guidelines issued by SEBI. Mutual Funds are permitted to participate in the derivatives market at par with Foreign Institutional Investors (FII). Accordingly, the mutual funds shall be treated at par with a registered FII in respect of position limit in index futures, index options, stock options and stock futures contracts. The Mutual Fund will be considered as trading members like registered FIIs and the schemes of Mutual Funds will be treated as clients like sub-accounts of FIIs. As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme and as per procedure prescribed under the stated circular.

D. Where will the scheme invest?

Subject to the Regulations, the corpus of the Scheme may be invested in all or any one of (but not exclusively) the following securities:

- Equity and equity related instruments including preference shares, convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- Securities created and issued by the Central and State Governments and/or repos/reverse repos/in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- Money Market Instruments - include Commercial Papers, Commercial Bills, Treasury Bills, and Government Securities having an un-expired maturity up to one year, Call or Notice Money, Certificate of Deposit, Usance Bills and any other like instruments as specified by the Reserve Bank of India / SEBI, from time to time.

- Commercial Paper (CPs);
- ADR/GDR
- Derivative instruments like Forward Rate Agreements and such other derivative instruments permitted by SEBI/RBI
- Any other like instrument/s as permitted by SEBI/RBI from time to time

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through initial public offerings (IPOs), secondary market operations, private placement or rights offers. All investments in securities whether privately placed or otherwise will be in line with SEBI guidelines as applicable and the investment objectives and policies of the Scheme. Investment in unrated securities will be in accordance with SEBI guidelines as applicable.

Pending deployment of funds of a scheme in terms of investment objectives of the scheme, the Mutual Fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board.

The investments in these deposits shall be in accordance with SEBI Circular Nos. SEBI/IMD/CIR No. 9/20306/03, SEBI/IMD/CIR No. 1/91171/07, SEBI/IMD/CIR No. 8/107311/07, SEBI/IMD/CIR No. 7/129592/08 dated 12 November 2003, 16 April 2007, 26 October 2007 and 23 June 2008 respective and any other applicable guidelines as amended or updated from time to time. The Scheme(s) shall abide by the following guidelines for parking of funds in short term deposits:

1. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
2. Such short-term deposits shall be held in the name of the Scheme.
3. The Scheme(s) shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustees.
4. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
5. The Scheme(s) shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
6. The Scheme(s) shall not park funds in short-term deposit of a bank, which has invested in the Scheme. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component (70% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call (i.e. market for overnight and term money between banks and institutions)
- Collateralised Borrowing & Lending Obligations (CBLO)

- Repo/Reverse Repo Agreement (temporary sale with an agreement to buy back the securities at a future date at a specified price)
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing as on 15th June 2016 on some of the instruments:-

Instrument	Current Yield Range
CBLO	6.37%-6.68%
Repo	5.50%-6.60%
3m Tbill	6.75%
1y Tbill	6.90%
10y G Sec	7.52%
3m PSU Bank CD	6.84%-6.90%
3m NBFC CP	7.80%-7.85%
3m Manufacturing Co. CP	6.95%-7.00%
1y PSU Bank CD	7.45%-7.50%
1y NBFC CP	8.60%-8.65%
1y Manufacturing Co. CP(PSU)	7.55%-7.65%
5y AAA Institutional Bond (PSU Bond)	8.00%-8.05%
10y AAA Institutional Bond (PSU Bond)	8.23%-8.28%

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

E. WHAT ARE THE INVESTMENT STRATEGIES?

Canara Robeco Large Cap+ Fund is named to reflect the investment strategy, which is mainly focused on a portfolio that would be concentrated on investing in any of the top 150 stocks ranked on the basis of the market capitalization. Canara Robeco Large Cap+ Fund provides investors with a portfolio which invests in stocks with large market capitalisation. Large Cap Stocks are an ideal investment choice on account of the following relative advantages: -

- **Market leaders** – Large cap companies act as catalyst for the country's economic growth and gain the most from an economic upturn and hence are a good proxy for the country's growth.

- **Economies of scale** – Large cap companies benefit from cost efficiency with lower per unit overhead costs due to their large scale operations and are thus able to offer competitive pricing leading to both higher top line and bottom line growth.
- **Access to raise resources** – Companies with large capitalisation have strong Balance Sheets along with the ability to raise/borrow large capital. They also have easy access to international markets for raising capital. Another advantage is that their cost of borrowing is lesser for both domestic and overseas borrowings.
- **Diversification** – A diversified portfolio of a Large Cap fund can be achieved by investing in large caps across Value Chain, Products (Brands), Market Segments and Geographic Locations, which helps in neutralising the impact of a downturn in any segment.
- **Risk Taking Ability** – Large Cap companies have resources to tap virgin markets, introduce niche products and technologies. They can command premium on niche as well as new product introductions and also could be market leaders. On the operational side, they have access to sophisticated information systems and use superior risk management systems. Thus with their deeper pockets, their risk taking ability is higher.
- **Preference given by Institutional Investors** – Large Cap companies are the preferred stocks for long-term investments for large institutional investors like Insurance Companies, Provident Funds (both domestic and foreign) etc. Also Global Venture Funds and Foreign Institutional Investors look for a certain minimum market cap for considering investments, which is normally satisfied only by Large Caps. Large Caps are also benefited by global cross border operations, which in turn improve the visibility of their stock.

Canara Robeco Large Cap+ Fund will have a distinctive feature in its investment process. This fund will use the inputs of the Robeco Emerging Markets Quantitative model ('REM Quant model') in its investment process as an Idea Generator. A Quantitative Strategy team will use a carve-out of the REM Quant Model to provide Canara Robeco with monthly rankings based on a defined investment universe of large cap names. The model to be used is consistent with the REM Quant Model as used in Robeco Groep, Rotterdam. The ultimate decision will be made by the portfolio manager. The beta of the portfolio would be maintained at levels higher than 0.75. A carve-out of the Robeco Emerging Markets Quant Model for Indian universe has been back tested since 1995 and a portfolio based on investing in the top 20 percentile of stocks and not investing in bottom 20 percentile of stocks have outperformed the portfolio which invests in the total universe of stocks (60 stocks until December 2008 and 150 stocks from December 2008 onwards). As the model is to be used as an Idea Generator in the investment process for Canara Robeco Large Cap+ Fund these inputs may be valuable for the portfolio manager while constructing the final portfolio.

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in portfolio construction process. Stock specific risk will be minimized by investing only in those companies that have been thoroughly analyzed by the AMC. The AMC will also monitor and control maximum exposures to any one company/scrip to 5% over its benchmark weight, subject to an absolute per scrip limit of 10% of the AUM. This could be raised to 7% on a case by case basis by the investment committee. Through adequate diversification of the portfolio, the AMC tries to reduce the risk. Diversification will also be achieved by spreading the investments over a diverse range of industries / sectors. The sector concentration would be limited to 7.5% active bet over benchmark sector weight.

The AMC will invest in sovereign/debt securities with short term ratings not less than CRISIL P1 or its equivalent. It will also invest in long term securities (long term ratings not less than CRISIL AA or its equivalent) with an unexpired maturity of less than 1 year. The investments may be made in primary as well as secondary markets. As far as possible, the portfolio will be adequately diversified to reduce the risk of underperformance, arising out of unexpected security-specific factors.

The Scheme being open ended, some portion of the portfolio may be invested in Money Market Instruments so as to meet the normal repurchase requirements. The remaining investment will be made in securities which are either expected to be reasonably liquid or of varying maturity. However, the NAV of the Scheme may be affected, if the securities invested in are rendered illiquid after investment.

In addition, the Investment Manager will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The Investment Manager would use this analysis to assess the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivatives instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing, within a permissible limit of portfolio, which may be increased as permitted under the Regulations and guidelines from time to time.

Risk Mitigation:

Investments made by the schemes would be in accordance with the investment objectives of the schemes and provisions of SEBI Regulations. Since investing required disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risk. With the aim of controlling risks, the investment team of the AMC will carry out rigorous indepth analysis of the securities proposed to be invested in.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Procedure followed for investment decisions:

The Fund Manager of the Scheme is responsible for making buy / sell decisions for the Scheme's portfolio and seeks to develop a well diversified portfolio taking into account the asset allocation patterns of various schemes along with risks that are associated with such investments. The investment decisions are made on an ongoing basis keeping in view the market conditions and other regulatory aspects.

The AMC has constituted an Investment Committee, currently comprising of the CEO, COO, Head of Risk Management, Head of Equities, Head of Fixed Income that meets at periodic intervals. The Investment Committee's role is to formulate broad investment strategies for the Scheme, review the performance of the Scheme and the general market outlook.

The Fund Manager is responsible for facilitating investment debate and a robust investment culture. The investment team would hold ongoing meetings as well as additional ad-hoc meetings as needed, to explore the investment thesis.

It is the responsibility of the AMC to seek to ensure that the investments are made as per the Regulatory guidelines, the investment objective of the Scheme and in the interest of the Unit holders of the Scheme(s).

The AMC will keep a record of all investment decisions in accordance with the guidelines issued by SEBI.

The AMC and Trustee will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry.

Portfolio Turnover Policy:

Purchase and Sale of securities attract transaction costs of the nature of brokerage, stamp duty, custodian transaction charges etc. The portfolio turnover is essential to regularly explore trading opportunities to optimise returns for the Scheme and enable portfolio restructuring when required.

The Scheme will manage its portfolio taking into account the associated risks (such as interest / liquidity / redemption etc.) perceived / expected, so as to minimise the risks by using adequate risk management techniques. The portfolio turnover policy will be aimed at maximising the returns/growth.

The AMC believes in active churning of the portfolio with an aim to encash on the opportunities that present themselves from time to time. However the scheme shall aim to achieve the turnover target of 100% to 150% of the corpus of the Scheme so long as the above target is cost effective and profitable without affecting long-term growth prospects of the investment and scheme objective

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations, 1996, the cost of investments acquired or purchased shall include all such costs incurred for effecting the transaction while the sale proceeds of investment sold or redeemed shall be net of all such costs incurred for effecting the sale transactions and shall form part of the purchase or the sale value of investments.

Underwriting:

The Schemes may take up underwriting of other issues subject to the relevant SEBI Regulations and as may be permitted by the Board of Directors of the Investment Manager.

Regulation 46 of SEBI (Mutual Funds) Regulations, 1996, states that:

"Mutual Funds may enter into underwriting agreement after obtaining a certificate of registration in terms of the SEBI (underwriters) rules and SEBI (underwriters) Regulations, 1993, authorising it to carry on activities as underwriters:

- i. For the purpose of these Regulations, the underwriting obligation will be deemed as if the investments are made in such securities.

- ii. The capital adequacy norms for the purpose of underwriting shall be the net assets of the Scheme. Provided that the underwriting obligation of a Mutual Fund shall not at any time exceed the total value of net assets of the Scheme.”

Stock/Securities Lending by the Fund:

The Fund may in future carry out stock/securities lending activity under any of its Schemes, in order to augment its income. Stock/securities lending may involve the risk of default such as loss, bankruptcy etc. on the part of the borrower. However, this is unlikely to happen if the stock/securities lending is carried out for stocks/securities which are in dematerialised form and through an authorised stock/securities lending Scheme which is subject to appropriate regulation. Any stock/securities lending done by the Scheme shall be in accordance with any regulations or guidelines regarding the same. The policy to be followed for stock/securities lending shall be approved by the Board of Directors of the Investment Manager as well as by the Board of Trustees.

Hedging and Derivatives

Apart from the general permission granted to Mutual Funds by SEBI for participating in derivatives vide its circular no. MFD/Cir/011/061/2000 dated 01st February, 2000, the position limits permitted under regulations as specified in SEBI Cir no. DNP/Cir-29/2005 dated 14th September, 2005 shall additionally apply to these schemes. However, the scheme specific exposure limits shall be subject to such limits permitted by the Trustees for each scheme.

SEBI vide its circular no. DNP/Cir-29/2005 dated September 14, 2005 permitted mutual funds to participate in derivatives trading subject to the observance of guidelines issued by SEBI. Mutual Funds are permitted to participate in the derivatives market at par with Foreign Institutional Investors (FII). Accordingly, the mutual funds shall be treated at par with a registered FII in respect of position limit in index futures, index options, stock options and stock futures contracts. The Mutual Fund will be considered as trading members like registered FIIs and the schemes of Mutual Funds will be treated as clients like sub-accounts of FIIs. As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme.

The following are the position limits for Mutual Funds and its schemes:

i. Position limit for Mutual Funds in index options contracts

- a. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 250 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for Mutual Funds in index futures contracts:

- a. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 250 crore or 15% of the total open interest of the market in index futures, whichever is higher per Stock Exchange.
- b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging

In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:

- a) Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- b) Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for Mutual Funds for stock based derivative contracts

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, stand in the following manner:

- a) For stocks in which the market wide position limit is less than or equal to Rs. 250 crore, the Mutual Fund position limit in such stock shall be 20% of the market wide position limit.
- b) For stocks in which the market wide position limit is greater than Rs.250 crore, the Mutual Fund position limit in such stock shall be Rs.50 crore.

v. Position limit for each scheme of a Mutual Fund

The position limits for each scheme of mutual fund and disclosure requirements shall be identical to that prescribed for sub account of a FI. Therefore, the scheme-wise position limit/ disclosure requirements shall be:

- i. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- ii. This position limits shall be applicable on the combined position in all derivative contracts on underlying stock at a Stock Exchange.
- iii. For index based contracts, Mutual Funds disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Monitoring of Position Limits

- a. The Mutual Fund shall notify Clearing Member/s for each scheme, through whom it would clear its derivative contracts, to the Stock Exchange.
- b. The Stock Exchange would then assign a unique client code to each scheme of the Mutual Fund.
- c. The Stock Exchange shall monitor the scheme-wise position limits in the manner similar to that prescribed for FIs and their sub-accounts in SEBI circular no. SMD/DC/Cir/-11/02 dated February 12, 2002 as modified from time to time.

The Fund shall comply with the guidelines issued by SEBI and amendments thereof issued from time to time in derivative trading.

Equity / Equity Related Derivative Instruments:

Index futures are meant to be an efficient way of buying / selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures can be an efficient way of achieving the Scheme's investment objective. Index futures may avoid the need for tracking in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scrips. Index futures can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares of an index and will be easy to settle compared to physical portfolio of shares representing an index.

Stock futures could also be used as an alternative to investing in particular stocks comprising an index where either the liquidity is low or the impact cost is high.

Basic Structure of an Index Future

Index Futures are instruments designed to give exposure to the equity market indices. The Stock Exchange, Mumbai and the National Stock Exchange of India Limited have started trading in index futures. The pricing of an index future is the function of the underlying index and short-term interest rates.

Illustration :

Spot Index : 1070

1 month Nifty Future Price on day 1 : 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 units of the underlying index.

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits of the Fund = $(1085-1075) * 100 \text{ lots} * 200 = \text{Rs.}200,000$.

Similarly, the fund can suffer a loss if the future price is lower than the contracted price. Let us say that in the above example, on the date of settlement the future price = Closing Spot Price = 1060.

Loss for the Fund = $(1060-1075) * 100 \text{ lots} * 200 = (\text{Rs.}300,000)$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity) plus interest costs on funds that would otherwise be invested in stocks comprising the index. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and/or mispricing of the future at any time during the life of the contract.

Strategy Number No. 1

Using Index Future to increase percentage investment in equities.

The strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is open ended in nature and subject to daily inflows. There may be a time lag between the inflow of funds and their deployment in equities. If so desired, the AMC would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.

Example :

The scheme has a corpus of Rs. 50 crores and there is an inflow of Rs. 5 crore in a day. The AMC may buy index futures contracts of a value of Rs. 5 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced.

Portfolio	Event	Equity Portfolio Gain(Loss) Rs. in Crs.	Derivative Gain (Loss) Rs. in Crs.	Total Portfolio Gain / (Loss) Rs. in Crs
Rs.50 Crore Equity exposure	10% rise in equity	5	NIL	5
Rs. 50 Crore exposure + Rs. 5 Crore long position index futures	10% rise in Equity Price	5	0.5	5.5
Rs.50 crore Equity exposure	10% fall in Equity price	(5)	Nil	(5)
Rs.50 crore Equity exposure + Rs 5 crore long position index futures	10% fall in equity price	(5)	(0.5)	(5.5)

RISKS

- The strategy of taking a long position in index futures increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not be provide gains perfectly aligned to the movement in the index.
- The long position will have as much loss as a gain in the underlying index, e.g. if the index appreciates by 10%, the future value rises by 10%. However, this is true only for futures contracts held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain/loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.
- Similarly, the fund can use stock futures to reduce the cost of holding in the following manner:
- When stock futures are trading at a discount then the fund can buy stock in futures market instead of buying in the cash market. On expiry of the contract, both prices (spot and future) have to align. On expiry or as and when stocks start trading at a premium in the futures market the transaction can be reversed by selling the stock in futures and buying in the cash market.
- Fund can take advantage of arbitrage opportunities in the futures markets to reduce cost of holding. If stock futures are trading at a discount then the fund can sell its existing holding in cash market and buy in the futures market. The cash realised will earn interest while the overall cost of the holding stock will also come down. On expiry of contract both prices (spot and futures) have to align. On expiry or as and when the stock starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in the futures and buying in the cash markets.

Strategy Number 2

Using Index Futures to decrease percentage investment in equities

Similarly, in the case of a pending outflow of funds where a negative view is taken on the market, the Fund, in order to reduce exposure in equities may 'sell the index forward' by taking a short position in Index Futures. This position can be unwound over a period of time simultaneously selling the equity shares from the investment portfolio of the Scheme. The strategy of taking a short position in the index future is a hedging strategy and reduces the market risk and volatility of the portfolio. However, if the value of the index future rises, then, the fund would be adversely affected due to its short position in index futures.

Example: Assume that a scheme has an equity exposure of Rs. 100 crore. If the Fund Manager wishes to reduce the equity exposure to Rs. 50 crore for a short time, he should sell index futures contracts of Rs. 50 crore.

Portfolio	Event	Equity Portfolio Gain/(Loss) (Rs. In crore)	Derivatives Gain/(Loss) (Rs. In crore)	Total portfolio Gain/(Loss) (Rs. In crore)
Without Hedge Rs.100 crore equity Exposure	10 % fall in equity price	(10)	NIL	(10)
With Hedge Rs.100 crore equity Exposure	10 % fall in equity prices	(10)	5	(5)
Without Hedge Rs.100 crore equity Exposure	10 % rise in equity prices	10	NIL	10
With Hedge Rs.100 crore equity Exposure	10 % rise in equity prices	10	(5)	5

50% Hedge – contract value of Rs. 50 crore

The above example demonstrates that the Fund would benefit from the hedged position if the index future moves in the direction as expected by the Fund Manager. Similarly, the Fund would be adversely affected from the hedged position if the index does not move in the direction expected by the Fund Manager.

RISKS

- The strategy of taking a short position in index futures is a hedging strategy and reduces the market risk. The short position is negatively correlated with the market. However, there is no assurance that the stocks in the portfolio and index behave in the same manner and thus this strategy may not be a perfect hedge.
- The short position will have as much loss as a gain in the underlying index. e.g. if the index appreciates by 10%, the future value falls by 10%. However, this is true only for futures contract held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain/loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are more liquid, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific future contract.

Strategy Number 3

Portfolio Protection Using Index Put

The purchase of an index put option gives the scheme the option of selling the index to the writer of the put at a predetermined level of the index, called the strike price. If the index falls below this level, the scheme benefits from the rise in the value of the put option.

Similarly, as a stock hedging strategy, the purchase of a put option on the underlying stock would give the scheme the option to sell the stock to the writer of the option at the predetermined strike price. This would lead to a capping of the loss in value of a stock.

Example: Let us assume a scheme with a corpus of Rs. 100 crore. Let us also assume an index of 100. The scheme is fully invested (Rs. 100 crore in equities). The scheme purchases a put option on the index with a strike price of 95 for an assumed cost of Rs. 1 crore. The following table illustrates the portfolio returns:

% change in Index	Index Value	Equity Portfolio Value Rs. In crore	Option Value Rs. In crore	Cost of the Put Option Rs. In crore	Portfolio Value Rs. In Crore	% returns from portfolio
-------------------	-------------	-------------------------------------	---------------------------	-------------------------------------	------------------------------	--------------------------

		A	B	C	(A+B+C)	
10	110	110	0	(1)	109	9
5	105	105	0	(1)	104	4
(5)	95	95	0	(1)	94	(6)
(10)	90	90	5	(1)	94	(6)
(15)	85	85	10	(1)	94	(6)

A similar put option can be purchased on any individual stock and the downside can be capped.

RISKS

- The table shows that the portfolio value will not fall below Rs. 94 crore, while the scheme benefits from any increase in stock prices. The table assumes perfect correlation between the equity portfolio and the index. However this may not be the case. Therefore, the minimum portfolio value cannot be assured, but the loss is expected to be lower in a portfolio with a put option on the index, as compared to a normal portfolio.
- The put option would lead to a gain based on the difference between the strike price and the index level at expiration date, if positive. However, in case the option is reversed before the expiration date, the market price received on the sale of the option may be different from the price calculated.
- While liquidity exists in options markets, there can be no assurance that the ready liquidity would exist at all points in time, for the scheme to purchase or close out a specific options contracts.
- In the case of purchase of a stock put, the strategy is a perfect hedge on the expiration date of the put option. On other days, there may be (temporary) imperfect correlation between the share price and the put option, which can potentially take the stock value below the minimum under the hedge.

Similarly, the Fund can use stock futures to reduce the cost of holding in the following manner:

- When stock futures are trading at a discount then the fund can buy in futures market instead of buying in the cash market. On expiry of the contract, both prices (spot and futures) have to align. On expiry or as and when stocks starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in futures and buying in the cash market.
- Fund can take advantage of arbitrage opportunities in the futures markets to reduce cost of holding. If stock futures are trading at a discount then the fund can sell its existing holding in cash market and buy in futures market. The cash realised will earn interest while the overall cost of holding stock will also come down. On expiry of contract both prices (spot and futures) have to align. On expiry or as and when the stock starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in the futures and buying in the cash markets.

Strategy Number 4

The scheme could gain exposure to the equity markets through exchange traded call options. The investment team will evaluate the prevailing premium levels on the call options with tenure suitable to the scheme. The scheme could in such a case implement a buy and hold (passive investment) strategy for the equity index call

options held or buy a series of shorter term equity index call options, thus the options strategy may be managed actively.

Example: Let us assume a scheme with a corpus of Rs. 100 crore. Let us also assume an index of 100. The scheme is invested about Rs. 99 crore in equities. The scheme purchases a call option on the index with a strike price of 100 for an assumed cost of Rs. 1 crore. Assuming the equity portfolio rises or falls by the same percentage as the index. The following table illustrates the portfolio returns:

% change in Index	Index Value	Equity Portfolio Value Rs. In crore A	Option Value Rs. In crore B	Portfolio Value Rs. In Crore (A+B)	% returns from portfolio
10	110	108.90	10	118.90	18.90
5	105	103.95	5	108.95	8.95
0	100	99	0	99	-1
(5)	95	94.05	0	94.05	-5.95
(10)	90	89.10	0	89.10	-10.90

A similar call option can be purchased on any individual stock and the upside potential can be augmented. The rate of participation would depend on prevailing prices of call options and the Amount Available for investment in options.

	Scenario 1	Scenario 2	Scenario 3
Strike price	8100	8200	8300
Premium	1925	1850	1700
Premium as %age of strike price	23.77%	22.56%	20.48%
Amount Available for investment in options (assumed)	17%	17%	17%
Therefore, Rate of Participation is amount invested in options / premium	72%	75%	83%

RISKS

- If the call options expire in the money, but not enough to compensate the premium paid, the returns of the option strategy could be less than the returns of the underlying equity market on maturity.
- Further, if the options expire out of the money, the scheme will face a loss to the extent of the premium paid for options. In such case even if the equity market has a positive return during the tenure of the Scheme, the Scheme may not provide positive returns in line with the market.
- There is also a possibility of the call options expiring prior to the maturity of the scheme. In such a case, the returns of the call option portion of the scheme on maturity may not coincide with the returns of the underlying equity market on maturity.
- Further in case of series of shorter term call options, since short dated options would be purchased at different times and at costs prevailing at the time of such purchase, the returns generated by such a strategy could be different from returns of the underlying equity market on maturity and from the returns generated from a buy and hold call options strategy up to the maturity of the scheme

Advantages of Equity Derivatives:

In times of volatility in the equity markets, derivatives provide much needed flexibility to hedge against this volatility. Some of the advantages of specific derivatives products are given below:

- Stock Index Futures can give exposure to the index. Appreciation in Index Investment in Stock Index Futures can give exposure to the index without directly buying the individual stocks, which make up the index. Appreciation in Index stocks can be effectively captured through investment in Stock Index Futures.
- The Scheme can sell futures to hedge against market movements without actually selling the underlying stocks it hold.
- By buying call options on the index, one can participate in the rise in the market, without actually buying individual stocks.
- By buying put options on the index, the Scheme can insulate the portfolio (assuming a perfect co-relation between portfolio and index which may not be the case) from the downside risk at a small cost.

Debt / Debt Related Derivatives

The Scheme may use derivatives in accordance with SEBI Regulations. RBI has issued guidelines on Interest Rate Swaps (IRS) and Forward Rate Agreements (FRA) on July 7, 1999. These products were introduced for developing the nation's Debt Market.

Interest Rates Swaps (IRS)

All swaps are financial contracts, which involve exchange (swap) of a set of payments receivable by one party for another set of payments receivable by another party, usually through an intermediary. An IRS can be defined as a contract between two parties (Counter Parties) to exchange, on particular dates in the future, one series of cash flows (fixed interest) for another series of cash flows (variable or floating interest) in the same currency and on the same principal for an agreed period of time. The exchange of cash flows need not occur on the same date.

Forward Rate Agreements (FRA)

A FRA is an agreement between two counter parties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date, based on a notional amount, for an agreed period. In short, in a FRA, interest rate is fixed now for a future period. The special feature of FRAs is that the only payment is the difference between the FRA rate and the Reference rate and hence are single settlement contracts. As in the case of IRS, notional amounts are not exchanged.

The Scheme will use derivative instruments for the purpose of hedging and portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment.

Basic Structure of an Interest Rate Swap

An interest rate swap is an agreement between two parties to exchange future payment streams based on a notional amount. Only the interest on the notional amount is swapped, and principal amount is never exchanged.

In a typical interest rate swap, one party agrees to pay a fixed rate over the term of the agreement and to receive a variable or floating rate of interest. The counterparty receives a stream of fixed rate payments at regular intervals as described in the agreement and pays the floating rate of interest.

Illustration :

Fixed interest rate : 10% p.a.

Variable Interest Rate : Over-Night MIBOR (variable) Notional Principal : Rs.10 crore

Period of Agreement : 1 year Interest Frequency : Semi-annual

Suppose six month period from the value date of swap to the first payment date is 182 days and the daily compounded over-night MIBOR is say 8% p.a. on that date, the interest streams are as follows :

Fixed Rate Payment :

$Rs.10,00,00,000.00 \times 182 \times 10 / 365 \times 100 = Rs.49,86,301.36$ Variable Rate :

$Rs.10,00,00,000.00 \times 182 \times 8 / 365 \times 100 = Rs.39,89,041.09$

In the above example, the fixed rate payer will pay the variable rate payer a net amount of Rs.9,97,260.27 (Rs.49,86,301.36 - 39,89,041.09).

Likewise the second and final payment will depend upon the variable NSE MIBOR for the remaining 183 days and the interest stream of fixed rate for the said period, the difference of which will be settled between the parties at the expiry of the contract.

The above example illustrates the benefits and risks of using derivatives for hedging and optimising the investment portfolio. Swaps have its own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Valuation of Derivative Products

The traded derivatives shall be valued at the closing price provided by the respective stock exchanges.

When a security is not traded on the respective stock exchange on the date of valuation, then the settlement price / any other derived price provided by the respective stock exchange.

The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the Securities and

Exchange Board of India (Mutual Funds) Regulations, 1996 as amended from time to time.

Exposure to Derivatives

Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme.

Risk associated with Derivatives trading:

The risk associated with index futures is similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the futures at the time of purchase. As and when the Scheme trades in the derivatives markets, there are risk factors and issues concerning the use of derivatives. Derivative products are specialised instruments that require investment techniques and risk analyses different from those associated with stocks. The use of a derivative requires understanding of the underlying instrument as well as that of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess risk that a derivative adds to the portfolio and the ability to forecast price movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks associated with trading in derivatives include the risks of mispricing or improper valuation of derivatives and inability of derivatives to correlate perfectly with underlying assets, indices.

The net impact for the Scheme will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, profit or loss for the Scheme will be the difference between the closing price (which can be higher or lower than the purchase price) and the purchase price.

F. FUNDAMENTAL ATTRIBUTES

The Fundamental Attributes of the scheme are as mentioned under, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

The past performance may or may not be sustained in future. Data as on 31st March, 2016. Returns have been calculated on an absolute basis for period less than one year and on a compounded annualized basis for period more than or equal to one year. However, the performance of the scheme would be impacted due to the expense ratio charged in the scheme.

An illustration:

Assuming, an investor has invested Rs.10, 000/- in the scheme having total expense ratio of 2.5%, The scheme generated a CAGR return of 10% over one year. Therefore,

Investment Amount (Rs.) (A)	=	10,000
Scheme Return (1Year) in CAGR (%) (B)	=	10%
Return in One Year (Rs.) (C= (A)*(1+B))	=	1,000
Total Expense Ratio (%) (D)	=	2.50%
Impact of Total Expense Ratio (Rs.) (E=A*D)	=	250
Total Return to the investor (Rs.) (F=C-E)	=	750

As mentioned in the illustration above, the schemes return to the investor is impacted by 2.50% due to the expense charged.

Regular Plan: Regular Plan is for investors who purchase /subscribe Units in the scheme through a Distributor.

Direct Plan: Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with Canara Robeco Mutual Fund and is not available for investors who route their investments through a Distributor (AMFI registered distributor / ARN Holder).

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Canara Robeco Mutual Fund shall have separate "Application Forms" for investors subscribing under Regular Plan & Direct Plan. Investors applying under Direct Plan can also fill the Regular Plan form, but should clearly indicate "Direct" in the ARN column of the application form. Also, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.

In case Distributor code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name, the Distributor code will be ignored and the application will be processed under Direct Plan.

Growth

Under this option, no dividends will be declared. The income attributable to units under this option will continue to remain invested and will be reflected in the NAV of the units under this option.

Dividend Payout Option

Dividends, if declared, will be paid (subject to deduction of tax at source, if any) to those Unit holders whose names appear in the Register of Unit holders on the notified record date. The Trustee / AMC reserves the right to change record date from time to time. However, it must be distinctly understood that the actual declaration of dividend and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI (MF) Regulations. The decision of the Trustee in this regard shall be final. There is no assurance or guarantee to Unit holders as to the rate of dividend distribution nor will that dividends be paid regularly. In order to be a Unit holder, an investor has to be allotted Unit against receipt of clear funds by the Scheme/s. On payment of dividends, the NAV will stand reduced by the amount of dividend and dividend tax (if applicable) paid.

Dividend Reinvestment

The unit holders have the option to reinvest the Dividend declared by the Scheme/s. Such unit holders opting to reinvest the dividend receivable by them shall invest in additional units of the Scheme/s. Upon exercising such option, the dividend due and payable to the unit holders will be compulsorily and without any further act by the unit holders reinvested in the Scheme.

The dividends so reinvested shall be constructive payment of dividends to the unit holders and constructive receipt of the same amount from each unit holder, for reinvestment in units.

On reinvestment of dividends, the number of units to the credit of unit holder will increase to the extent of the dividend reinvested divided by the first 'Ex-income Distribution NAV' on the day of reinvestment as explained above.

There shall not be any entry load, if any, for the dividends reinvested.

Default Option

In case the investor fails to specify the preference, it would be construed that the investor has opted for Growth Option

In case of valid applications received without indicating any choice of option under Dividend Option, it will be considered as option for Dividend Reinvestment Option and processed accordingly.

In case of valid applications received the default plan will be captured based on below table

B. Introduction of SIP Top -UP Facility

It is a facility wherein an investor who is enrolling for SIP has an option to increase the amount of the SIP installment by a fixed amount at pre-defined intervals. Thus, an investor can progressively start increasing the amount invested, allowing him/her to gradually increase the investment corpus in a hassle-free manner.

The silent features of the said facility are as follows:

1. SIP Top- UP facility is applicable to an Investor who is enrolling for a new SIP.
2. Minimum Top – up Amount for the said facility will be Rs. 500/- & in multiples thereof. In case the Top –Up amount is not mentioned but the upper limit is included in the application/mandate form, the default top –up amount will be Rs. 500/-.
3. Frequency for the Top up facility :
 - a) The said facility is available only for the SIP facility having frequency of Monthly and Quarterly.
 - b) The investor can choose a frequency for the Top Up depending on the SIP frequency being opted. In case of a Monthly SIP, the investor can choose either a **'Half-yearly'** or **'Annual'** based Top-up frequency; while in case of a Quarterly SIP; the available Top-up frequency will only be **'Annual'** based.
 - c) In case SIP Top-Up frequency is not mentioned, the default frequency will be considered as **'Annual'** for both monthly and Quarterly SIP.
4. The facility is available only for the investors who submit **"One Time Mandate Form"** i.e. NACH/ECS/Direct Debit Form mentioning the Maximum Amount. This will allow an investor to limit the total investment to a maximum amount as decided by the investor while filling up the Mandate Form.
5. Once the SIP Top-Up upper limit is reached, the Top – Up will be discontinued. However, the SIP will continue at the upper limit for the remaining SIP enrolment period. For further clarification, please refer the *illustrations* as mentioned below.
6. The initial investment under the SIP Top- UP will be subject to minimum SIP investment requirement, as applicable to the eligible schemes from time to time.
7. The Top-up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enroll for a fresh SIP with Top-up option.
8. SIP Top-up facility shall be available for SIP Investments through ECS (Debit Clearing) / Direct debit facility / NACH facility only.
9. For further details and Forms, investors are requested to refer our website (www.canararobeco.com) or visit nearest sales office of AMC/Investor's Service Center of Registrar viz. Karvy Computershare Private Limited. All other terms & Conditions of the said addendum shall remain unchanged.

C. Micro Systematic Investment Plan including MICRO SIP

In accordance with AMFI notification and Guidelines issued, investments in mutual fund schemes [including investments in systematic Investment Plan (MICRO SIP)] by investor in a rolling 12-month period or in a financial year i.e. April to March does not exceed Rs 50,000/- (known as "Micro Investment") shall be exempted from the requirement of PAN. However, requirements of Know Your

Customer (KYC) shall be mandatory. Accordingly, investors seeking the above exemption for PAN still need to submit the KYC Acknowledgement, irrespective of the amount of investment

This exemption of PAN requirement is only available to individuals (including NRIs but not PIOs), Minors and Sole proprietary firms. HUFs cannot avail this exemption.

For the purpose of identifying Micro investment, the value of investments at the investor level (first holder) will be aggregated based on the unique ID number mentioned on the KYC Acknowledgement and such aggregation shall be done irrespective of the number of folios/ accounts under which the investor is investing.

Investors who wish to enrol for Micro Investment Plans (including micro SIP) are required to fill in the Micro SIP Enrolment Form available with the ISCs, distributors/ agents and also displayed on the website www.canararobeco.com. Investors are advised to read the terms and conditions carefully before enrolment.

All terms and conditions of Systematic Investment Plans (SIPs) shall apply to Micro SIPs. The Trustee reserves the right to change/modify the terms and conditions of Micro SIPs at a later date on a prospective basis.

II. Systematic Transfer Plan (STP):

STP is a facility wherein a unit holder of a Canara Robeco Mutual Fund scheme can opt to transfer a fixed amount or capital appreciation amount at regular intervals to another scheme of Canara Robeco Mutual Fund. The amount transferred under the STP from the Transferor scheme to the Transferee scheme, shall be effected by redeeming units of Transferor scheme and subscribing to the units of the Transferee scheme.

The facility can be exercised on	01 st or 5th or 15th or 20 th or 25th of every month / quarter. (In case, the date fixed happens to be a holiday / non-business day, the cheques shall be deposited / Auto Debit/Credit Facility will be affected on the next business day.)
Applicable NAV and Cut-off time	Applicable NAV and cut-off time as prescribed under the Regulation shall be applicable.
Notice Period	Investors are given option to discontinue STP by giving 15 days notice prior to the due date of the next instalment.

III. Systematic Withdrawal Plan (SWP):

Investors can use the SWP facility for regular inflows. Withdrawals can be made by informing the AMC or Registrar of the specified withdrawal dates and minimum amount as per the table below. The amount will be converted into units at the applicable repurchase price on that date and will be subtracted from the units with the unit holder. The AMC may close a unit holder's account if the balance falls below the specified minimum amount for the scheme. Unit holders may change the amount indicated in the SWP, subject to the minimum amount specified. The SWP may be terminated on written notice from the unit holder and it will terminate automatically when all the units of the unit holder are liquidated or withdrawn from the account.

The features of Systematic Withdrawal Plan (SWP) are as under:

Monthly SWP Minimum amount per SWP instalment	Rs. 1,000.00 and multiple of Re. 1.00 thereafter
Quarterly SWP Minimum amount per SWP instalment	Rs. 2,000.00 and multiple of Re. 1.00 thereafter

Applicable NAV and Cut-off time	Applicable NAV and cut-off time as prescribed under the Regulation shall be applicable.
Notice Period	Investors are given option to discontinue SWP by giving 15 days notice prior to the due date of the next instalment.

IV. SWITCHING OPTIONS

Unit holders under the Scheme(s) have the option to Switch part or all of their Unit holdings in the Scheme(s) to another scheme(s) established by the Mutual Fund, or within the Scheme(s) from one plan / option to another plan / option (subject to completion of lock-in period, if any) which is available for investment at that time. This Option will be useful to Unit holders who wish to alter the allocation of their investment among the scheme(s) / plan(s) / option(s) of the Mutual Fund in order to meet their changed investment needs. The Switch will be effected by way of a Redemption of Units from the Scheme / Plan and a reinvestment of the Redemption proceeds in the other scheme / plan and accordingly, to be

effective, the Switch must comply with the Redemption rules of the Scheme and the issue rules of the other scheme (e.g. as to the minimum number of Units that may be redeemed or issued, Exit etc). The price at which the Units will be switched out of the Scheme(s) will be based on the Redemption Price, and the proceeds will be invested in the other scheme / plan at the prevailing sale price for units in that scheme / plan. No load shall be imposed for switching between the Plans / Options within the Scheme. The Switch request can be made on a pre-printed form or by using the relevant tear off section of the Transaction Slip enclosed with the Account Statement, which should be submitted at / may be sent by mail to any of the ISCs. The AMC retains the right to charge different Loads on Switching of Units as compared to Sale / Redemption of Units as the case may be.

The AMC reserves the right to impose Loads for Switching between plans within the Scheme or Options within the respective Plans at a future date.

V. TRANSACTIONS THROUGH "CHANNEL DISTRIBUTORS"

Investors may enter into an agreement with certain distributors (with whom AMC also has a tie up) referred to as "Channel Distributors" who provide the facility to investors to transact in units of mutual funds through various modes such as their website / other electronic means or through Power of Attorney in favour of the Channel Distributor, as the case may be. Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. The Channel Distributor is required to send copy of investors' KYC proof and agreement entered into between the investor & distributor to the RTA (one time for central record keeping) as also the transaction documents / proof of transaction authorization as the case may be, to the AMC / RTA as per agreed timelines. In case KYC proof and other necessary documents are not furnished within the stipulated timeline, the transaction request, shall be liable to be rejected. Normally, the subscription proceeds, when invested through this mode, are by way of direct credits to the specified bank account of the Fund. The Redemption proceeds (subject to deduction of tax at source, if any) and dividend payouts, if any, are paid by the AMC to the investor directly through direct credit in the specified bank account of the investor or through issuance of payment instrument, as applicable. It may be noted that investors investing through this mode may also approach the AMC / Official Point(s) of Acceptance directly with their transaction requests (financial / non-financial) or avail of the online transaction facilities offered by the AMC. The Mutual Fund, the AMC, the Trustee, along with their directors, employees and representatives shall not be liable for any errors, damages or losses arising out of or in connection with the transactions undertaken by investors/distributors through above mode.

VI. Transactions through Stock Exchange Platform for Mutual Funds

Investors are requested to note that, in addition to the existing modes for transactions, investors can transact through Mutual Fund Service System (MFSS) platform of National Stock Exchange of India Limited (NSE).

The Salient features of the facility are as follows:

1. Transaction for this purpose shall include purchase (including registration of SIP) and redemption. Switching of units will not be permitted through this platform.
2. The facility for purchase/redemption of units on MFSS will be available on all business days between 9.00 a.m. to 3.00 p.m. or such other time as may be decided from time to time.

5. Investors will be required to comply with Know Your Customer (KYC) norms as prescribed by NSE/NSDL/CDSL and Canara Robeco Mutual Fund to participate in this facility.
6. Cut off timing for purchase /redemption of units

Time stamping as evidenced by confirmation slip given by stock exchange mechanism will be considered for the purpose of determining applicable NAV and cut off timing for the transactions. The applicability of NAV will be subject to guidelines issued by SEBI from time to time on uniform cut-off time for applicability of NAV.

7. CRMF will not send account statement to unitholders holding units in demat mode. The statement provide by the Depository Participant will be equivalent to account statement.
8. For all the transactions done through the platform separate folio number will be allotted and the bank account, address, nomination details, etc. shall be same as per the Demat account of the investor.
9. For any grievances with respect to transactions in MFSS, the investors/unitholders should approach the Stock Broker or the investor grievances cell of the stock exchange.
10. This facility of transacting in the scheme through stock exchange infrastructure is available subject to such limits, regulations, operating guidelines, terms and conditions as may be prescribed by SEBI/ NSE from time to time. The operating guidelines are available at NSE website viz., www.nseindia.com

Following guidelines shall be applicable for transactions executed through MF Distributors through the Stock Exchange Mechanism:

1. Mutual Fund Distributor registered with Association of Mutual Funds in India (AMFI) and who has been permitted by the concerned recognised stock exchange will be eligible to use NMF-II platform of National Stock Exchange of India Ltd. ('NSE') and/or of BSE Star MF platform of Bombay Stock Exchange ('BSE') to purchase and redeem units of schemes of the Fund directly from CRMF in physical (non-demat) mode and/or demat (electronic) mode.
2. MF distributors shall not handle pay out/pay in of funds as well as units on behalf of investor. Pay in will be directly received by recognized clearing corporation and payout will be directly made to investor's account. In the same manner, units shall be credited and debited directly from the demat account of investors.
3. Non-demat transactions are also permitted through stock exchange platform.
4. The facility of transacting in mutual fund schemes through stock exchange infrastructure is available subject to such operating guidelines, terms and conditions as may be prescribed by the respective Stock Exchanges from time to time.

VII. ONLINE TRANSACTION ON THE WEBSITE:

Facility of online transactions is available on the official website of Canara Robeco Mutual Fund i.e. www.canararobeco.com. Consequent to this, the said website is declared to be an "official point of acceptance" for applications for subscriptions, redemptions, switches and other facilities. The Uniform Cut-off time as prescribed by SEBI and as mentioned in the Scheme Information Documents of respective schemes shall be applicable for applications received on the website. However, investors should note that transactions on the website shall be subject to the eligibility of the investor, any terms & conditions as stipulated by Canara Robeco Mutual Fund/Canara Robeco Asset Management Company Limited (CRAMC) from time to time and any law for the time being in force.

VIII. Online Transactions through Karvy MFS website:

Facility of online transactions is also available on the website of Karvy Computershare Private Limited ("Karvy"), the Registrar and Transfer Agent for Canara Robeco Mutual Fund (CRMF) Schemes i.e. www.karvymfs.com. Consequent to this, the said website is declared to be an "official point of acceptance". The Uniform Cut-off time as prescribed by SEBI and as mentioned in the Scheme Information Documents of respective schemes shall be applicable for applications received on the website. However, investors should note that transactions on the website shall be subject to the eligibility of the investor, any terms & conditions as stipulated by Canara Robeco Mutual Fund/Canara Robeco Asset Management Company Limited (CRAMC) / Karvy from time to time and any law for the time being in force.

IX. National Automated Clearing House Facility (NACH)

Investors can enroll for investments in Systematic Investment Plan (SIP) through National Automated Clearing House (NACH) Platform. NACH is a centralized system, launched by National Payment Corporation of India (NPCI) for consolidation of multiple Electronic Clearing Service system. NACH facility can be availed only if the Investor's Bank is a participating Bank in NACH Platform and subject to Investors Bank accepting NACH Registration mandate. Registration Forms are available on www.canararobeco.com and at our Branch Offices. For registration under NACH, investors are required to submit registration form and requisite documents at least 31days prior to the first SIP installment date. Existing Investors, who wish to invest in SIP through NACH will have to cancel the existing ECS/DD mandate and register under NACH. Once registered under this facility, for any modification to the mandate registered, Investors will have to cancel the existing SIP registration and re-register.

X. Dividend Transfer Facility:

An investor applying for this facility can opt to automatically invest the dividend (as reduced by the amount of applicable statutory levy) to any open ended scheme of Canara Robeco Mutual Fund.

The dividend amount eligible for Dividend Transfer Facility would be subject to minimum investment requirement, as applicable from time to time, of the scheme to which dividend is being transferred.

The Investor can choose to avail of this facility at the time of making the application to subscribe to the units of the scheme by signing separately in the designated space in the application form and confirming their intention to avail Dividend Transfer Facility. Further, investor shall also have an option to apply for this facility by submitting a written request, at any time during the tenure of the scheme, not later than 10 working days prior to the maturity of the scheme.

Dividend Policy

The Scheme/s may distribute, surplus if any, by way of dividend/ fully paid bonus units, as may be decided by the Trustees from time to time. **If there is no distributable surplus or surplus amount is too small for distribution, in the opinion of the Trustees, the Dividend/Bonus declaration may not take place. The Scheme/s is not assuring or guaranteeing any dividend or fully paid bonus units or returns.**

Income Distribution, if declared, warrants will be issued within 30 days from the date of declaration of Income Distribution or such period that may be stipulated from time to time. The Income Distribution will be paid out of the Net surplus of the Scheme, to those unit holders whose names appear in the register of unit holders on the date to be notified for the purpose. On payment of dividends, the NAV will stand reduced by the amount of dividend and dividend tax (if applicable) paid. The AMC reserves the right to change the record date from time to time

Dividend Distribution Procedure

In accordance with SEBI Circular no. SEBI/ IMD/ Cir No. 1/ 64057/06 dated April 4, 2006, the procedure for Dividend Distribution would be as under:

1. Quantum of dividend and the record date will be fixed by the Trustees. Dividend so decided shall be paid, subject to availability of distributable surplus.
2. Within one calendar day of decision by the Trustee, the AMC shall issue notice to the public communicating the decision about the dividend including the record date, in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.
3. Record date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of unit holders for receiving dividends. The Record Date will be 5 calendar days from the issue of notice.
4. The notice will, in font size 10, bold, categorically state that pursuant to payment of dividend, the NAV of the Scheme would fall to the extent of payout and statutory levy (if applicable).
5. The NAV will be adjusted to the extent of dividend distribution and statutory levy, if any, at the close of business hours on record date.
6. Before the issue of such notice, no communication indicating the probable date of dividend declaration in any manner whatsoever will be issued by Mutual Fund.

Threshold Limit for 'Dividend Payout' Option

If the dividend amount payable to the unit holders under the 'Dividend Payout' option under a folio is less than or equal to Rs. 250/- and where complete bank account details are not provided by the unitholders, then such amount will be compulsorily reinvested wherever reinvestment option is available under the scheme(s) and an account statement will be sent to the investors at their Registered Address.

The dividend shall be re-invested at the prevailing ex-dividend Net Asset Value per Unit on the record date. There shall be no Exit Load on the dividend so reinvested. The dividends so reinvested shall constitute a constructive payment of dividends to the Unit holders and a constructive receipt of the same amount from each Unit holder for reinvestment in Units.

Allotment

Allotment of Units to the eligible applicants under the Scheme who comply with the terms of the scheme.

Subject to the receipt of the specified minimum subscription amount, full allotment of Units applied for will be made within 5 business days from the date of closure of the NFO Period for all valid applications received during the NFO Period. Allotment of units will be made to all the applicants provided the applications are complete in all respects. [Fractional units will be allotted up to two decimals]. However, acceptance of application and allotment of units / fractional units will be at the absolute discretion of the Trustees and the application can be rejected without assigning any reason whatsoever.

Date of subscription at the notified centers is deemed to be the date of allotment for claiming tax benefits under the Scheme, provided the application has not been rejected by the Fund subsequently for the reasons explained above.

Allotment Confirmation / Consolidated Account Statement (CAS):

AMC shall send a llotment confirmation specifying the number of units allotted to the investor by way of email and/or SMS's to the investors' registered email address and/or mobile number not later than 5 (five) business days from the date of closure of the New Fund Offer Period. A Consolidated Account Statement (CAS) shall also be sent to the unitholder in whose folio transactions have taken place during that month, on or before 10th of the succeeding month by e-mail/mail. In case of specific request received from investors, Mutual Fund will provide an account statement to the investors within 5 (five) Business Days from the receipt of such request.

Further, SEBI vide its circular ref. no.CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding demat accounts. In view of the said requirement the account statements for transactions in units of the Fund by investors on or after February 1, 2015 will be dispatched to investors in following manner:

I. Investors who do not hold Demat Account

Consolidated account statement*, based on PAN of the holders, shall be sent by AMC/ RTA to investors not holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by AMC/RTA every half yearly (September/ March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios there have been no transactions during that period.

*Consolidated account statement sent by AMC/RTA is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month.

II. Investors who hold Demat Account

Consolidated account statement**, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories.

**Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month.

Following provisions shall be applicable to CAS sent through AMC/ RTA and CAS sent through depositories:

- a. Investors are requested to note that for folios which are not included in the CAS, AMC shall henceforth issue monthly account statement to the unit holders, pursuant to any financial transaction done in such folios; the

monthly statement will be sent on or before tenth day of succeeding month. Such statements shall be sent in physical form if no email id is provided in the folio.

- b. The statement sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form, by the RTA/AMC.
- c. In the event the folio/demat account has more than one registered holder, the first named Unit holder/Account holder shall receive the CAS (AMC/RTA or Depository). For the purpose of CAS (AMC/RTA or Depository), common investors across mutual funds/depositories shall be identified on the basis of PAN. Consolidation shall be based on the common sequence/order of investors in various folios/demat accounts across mutual funds / demat accounts across depository participants.
- d. Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.
- e. For Unit Holders who have provided an e-mail address in KYC records, the CAS will be sent by e-mail.
- f. The Unit Holder may request for a physical account statement by writing to/calling the AMC/RTA. In case of a specific request received from the unit holders, the AMC/RTA shall provide the account statement to the unit holders within 5 business days from the receipt of such request.
- g. Account Statements shall not be construed as proof of title and are only computer printed statements indicating the details of transactions under the Schemes during the current financial year and giving the closing balance of Units for the information of the Unit Holder.
- h. Non-transferable Unit Certificates will be sent, if an applicant so desires, within 5 Business Days of the receipt of a request for the certificate. Unit Certificates will not be issued for any fractional Units entitlement.
- i. Units held, either in the form of Account Statement or Unit Certificates, are non-transferable. The Trustee reserves the right to make the Units transferable at a later date subject to SEBI (MF) Regulations issued from time to time.

Unit Certificates:

Normally no unit certificates will be issued under the Scheme. However, if the unitholder so desires, the AMC shall issue a unit certificate to the unitholder within 30 days of the receipt of request for the certificate. The cost of stamp duty paid for issuing the unit certificate will form part of the annual ongoing expenses and/or may be recovered from the Unitholder. However, such unit certificates are not tradable with the Stock Exchange.

Option to hold Units in dematerialized (demat) form

The Unit holders under the Scheme(s)/Plan(s) shall have an option to subscribe/ hold the Units in demat form in accordance with the provisions laid under the respective Scheme(s)/Plan(s) and in terms of the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time.

Investors intending to hold units in electronic (demat) form will be required to have beneficiary account with a Depository Participant (DP) (registered with NSDL / CDSL) and will be required to indicate, in the application form, the DP's name, DP ID Number and the Beneficiary account number of the applicant held with the DP at the time of subscribing to the units. Applicants must ensure that the sequence of the names as mentioned in the application form matches with that of the beneficiary account held with the DP. Names, PAN details, KYC details etc. mentioned in the Application Form will be verified against the Depository records. If the details mentioned in the application form are found to be incomplete / incorrect or not matching with the depository records, the application shall be treated as application for physical (non-demat) mode and accordingly units will be allotted in physical (non-demat) mode. Unitholders who have opted to hold and thereby allotted units in electronic (demat) form will receive payment of redemption / dividend proceeds into bank account linked to their Demat account.

In case, the Unit holder desires to hold the Units in a Dematerialized /Rematerialized form at a later date, the request for conversion of units held in non-demat form into Demat (electronic) form or vice-versa should be submitted alongwith a Demat/Remat Request Form to their Depository Participants.

Units held in demat form will be transferable subject to the provisions laid under the respective Scheme(s)/Plan(s) and in accordance with provisions of Depositories Act, 1996 and the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996 as may be amended from time to time.

Redemption

The redemption or repurchase proceeds shall be dispatched to the unit holders within 10 working days from the date of redemption or repurchase.

Dividend

The dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend

Delay in payment of redemption / repurchase proceeds or despatch of dividend warrants

The Asset Management Company shall be liable to pay interest to the unit holders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).

Investment of unclaimed redemption and dividend amounts of the schemes of the CRMF:

Pursuant to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/ 2016/37 dated February 25, 2016 issued on "Treatment of unclaimed redemption and dividend amounts", the new plan viz. Canara Robeco Liquid – Unclaimed Redemption & Dividend Plan – Direct Growth Option has been introduced with the limited purpose of deploying the unclaimed redemption and dividend amounts of the schemes of the Canara Robeco Mutual Fund ("CRMF").

The said Plan will not be available for subscription/switch-in by investors/Unit Holders of the schemes of the CRMF. No exit load will be charged on the plan and the total expense ratio of the Plan will be capped at 50 bps. All other terms and conditions of the Scheme remain unchanged.

Foreign Account Tax Compliance

FATCA is an acronym for Foreign Account Tax Compliance Act ("FATCA"), a United States Federal law to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments. The Government of India and the United States of America (US) have reached an agreement in substance on the terms of an Inter- Governmental Agreement (IGA) and India is now treated as having an IGA in effect from April 11, 2014. The AMC/Fund are likely to be classified as a 'Foreign Financial Institution' (Investment Entity as per Annexure 1(i)) under the FATCA provisions. In accordance with FATCA provisions, the AMC/Mutual Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information/documentary evidences of the US and/or non-US status of its investors/Unit holders and disclose such information (through its agents or service providers) as far as may be legally permitted about the holdings, investment returns and/or to US Internal Revenue Service (IRS) or the Indian Tax Authorities, as the case may be for the purpose of onward transmission to the IRS pursuant to the new reporting regime under FATCA.

Listing

As the repurchase facility is provided on an ongoing basis, at NAV related prices, the units of the Scheme/s are not listed on any Stock Exchanges. However, the Mutual Fund may at its sole discretion list the Units under the Scheme(s) on one or more stock exchange at a later date.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.

The number of Units held by the Unit holder under his folio will stand reduced by the number of Units redeemed. Presently, the AMC does not intend to reissue the repurchased units. However, the Trustees reserve the right to reissue the repurchased units at a later date after issuing adequate public notice and taking approvals, if any, from SEBI.

Restrictions, if any, on the right to freely retain or dispose of units being offered**SUSPENSION OF SALE / REDEMPTION OF UNITS**

The Mutual Fund at its sole discretion reserves the right to suspend sale and Redemption of Units in the Scheme temporarily or indefinitely when any of the following conditions exist. However, the suspension of sale and Redemption of Units either temporarily or indefinitely will be with the approval of the Trustee:

1. When one or more stock exchanges or markets (including bullion markets, forex markets which provide for valuation), are closed otherwise than for ordinary holidays.
2. When, as a result of political, economic or monetary events or any circumstances outside the control of the Trustee and the AMC, the disposal of the assets of the Scheme are not reasonable, or would not reasonably be practicable without being detrimental to the interests of the Unit holders.
3. In the event of breakdown in the means of communication used for the valuation of investments of the Scheme, without which the value of the securities of the Scheme cannot be accurately calculated.
4. During periods of extreme volatility of markets, which in the opinion of the AMC are prejudicial to the interests of the Unit holders of the Scheme.
5. In case of natural calamities, strikes, riots and bandhs etc.
6. In the event of any force majeure or disaster that affects the normal functioning of the AMC or the ISC.
7. During the period of Book Closure.
8. If so directed by SEBI.

The AMC reserves the right in its sole discretion to withdraw the facility of Sale of Units of the Scheme, temporarily or indefinitely, if AMC views that changing the size of the corpus further may prove detrimental to the existing Unit holders of the Scheme.

Suspension or restriction of Redemption facility shall be made applicable only after the approval of the Board of Directors of the AMC and the Trustee. The approval from the AMC Board and the Trustee giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

Further, Trading on stock exchanges may be halted (temporarily or indefinitely) because of market conditions or for reasons, that in view of the Exchange authorities or SEBI, trading in units of the scheme is not advisable.

Right to Limit Redemptions

Subject to complying with the requirements as stated in the SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2016/57 dated 31st May, 2016 the following requirements shall be observed before imposing restriction on redemptions.

The AMC with the specific approval of Board of Trustees and Directors under immediate intimation to SEBI, may impose restriction to the redemptions of units of the scheme when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as Liquidity issues, Market failures, exchange closures, Operational issues like force majeure, technical failures etc.

Such restrictions will not exceed 10 working days in a period of 90 days. No redemption requests up to INR 2 lakh will be subject to any restrictions. Where redemption requests are above INR 2 lakh, AMC will redeem the first INR 2 lakh without restrictions and remaining part over and above INR 2 lakh will be subject to the following restrictions.

The AMC may restrict the maximum number of units that may be redeemed from a scheme/options on a business day to 5% of the total number of Units then in issue under the Scheme and option(s) thereof (or such higher percentage as the AMC may decide in any particular case) excluding the units that will be redeemed as per regulations without restrictions as above.

The Trustee/AMC may alter the limits and other conditions in line with the SEBI Regulations.

Accounts Statements

For Ongoing offer period subscriptions: On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted by way of e-mail and/or SMS within 5 business days from the date of receipt of transaction request will be sent to the Unitholders registered email address and/or mobile number.

A Consolidated Account Statement (CAS) shall also be sent to the unitholder in whose folio transactions have taken place during that month, on or before 10th of the succeeding month by e-mail/mail. In case of specific request received from investors, Mutual Fund will provide an account statement to the investors within 5 (five) Business Days from the receipt of such request.

Further, SEBI vide its circular ref. no.CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding demat accounts. In view of the said requirements the account statements for transactions in units of the Fund by investors on or after February 1, 2015 will be dispatched to investors in following manner:

I. Investors who do not hold Demat Account

Consolidated account statement*, based on PAN of the holders, shall be sent by AMC/ RTA to investors not holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by AMC/RTA every half yearly (September/ March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios there have been no transactions during that period.

*Consolidated account statement sent by AMC/RTA is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month.

II. Investors who hold Demat Account

Consolidated account statement**, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories.

**Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month.

Following provisions shall be applicable to CAS sent through AMC/ RTA and CAS sent through depositories:

- a. Investors are requested to note that for folios which are not included in the CAS, AMC shall henceforth issue monthly account statement to the unit holders, pursuant to any financial transaction done in such folios; the monthly statement will be sent on or before tenth day of succeeding month. Such statements shall be sent in physical form if no email id is provided in the folio.
- b. The statement sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form, by the RTA/AMC.
- c. In the event the folio/demat account has more than one registered holder, the first named Unit holder/Account holder shall receive the CAS (AMC/RTA or Depository). For the purpose of CAS (AMC/RTA or Depository), common investors across mutual funds/depositories shall be identified on the basis of PAN. Consolidation shall be based on the common sequence/order of investors in various folios/demat accounts across mutual funds / demat accounts across depository participants.
- d. Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.
- e. For Unit Holders who have provided an e-mail address in KYC records, the CAS will be sent by e-mail.
- f. The Unit Holder may request for a physical account statement by writing to/calling the AMC/RTA. In case of a specific request received from the unit holders, the AMC/RTA shall provide the account statement to the unit holders within 5 business days from the receipt of such request.
- g. Account Statements shall not be construed as proof of title and are only computer printed statements indicating the details of transactions under the Schemes during the current financial year and giving the closing balance of Units for the information of the Unit Holder.
- h. Non-transferable Unit Certificates will be sent, if an applicant so desires, within 5 Business Days of the receipt of a request for the certificate. Unit Certificates will not be issued for any fractional Units entitlement.
- i. Units held, either in the form of Account Statement or Unit Certificates, are non-transferable. The Trustee reserves the right to make the Units transferable at a later date subject to SEBI (MF) Regulations issued from time to time.

Annual Account Statement:

The Mutual Funds shall provide the Account Statement to the Unit holders who have not transacted during the last six months prior to the date of generation of account statements. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement

The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Scheme.

Alternately, soft copy of the account statements shall be mailed to the investors' e-mail address, instead of physical statement.

Half Yearly Consolidated Account Statement:

A consolidated account statement detailing holding across all schemes at the end of every six months (i.e. September/ March), on or before 10th day of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period shall be sent by mail/email.

The half yearly consolidated account statement will be sent by e-mail to the Unit holders whose e-mail address is registered with the Fund, unless a specific request is made to receive in physical.

Unit holders who receive account statements by e-mail may download the documents after receiving e-mail from the Fund. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder

shall promptly advise the Fund to enable the Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.
