The government's decision to slash rates of Goods and Services Tax (GST) on a wide range of consumer goods is being cheered by analysts. Tax rates were cut from 28% to 18% across items, including consumer durables like washing machines, television sets, vacuum cleaners and refrigerators, apart from sharp cuts in smaller items like footwear, paints, leather products and textiles. This is expected to spur demand and give a fillip to

RISK-REWARD MATRIX

Thematic Funds have high risk as well as high reward as compared to Other Equity Funds

Note: The fund positioning broadly reflects the category average rolling returns & standard deviation based on 3 year rolling returns taking past 3 years as a time horizon on a monthly rolling basis. The same was considered since the period captures the returns mainly post SEBI scheme categorization. The data points consider industry peer group average for the different equity categorization except thematic and sector funds, for which CRMF fund data has been considered.

Investment Checklist

INVESTMENT STRATEGY

- Consumer Trends Fund, being a thematic fund, invests in the niche space and follows a 'Growth' style of investing
- The Fund invests in stocks across the Market Capitalization range and seeks to generate 'compounding' returns from investing in high growth and competently managed companies
- Focus is on selective categories such as 1) discretionary consumption - supported by aspirational spending and rising disposable income and 2) the retail financiers (banks and NBFCs) benefiting from the low credit penetration in the retail segment
- The fund participates in categories supported by regulatory or demand-backed tailwinds
- For stock selection, we spot the changing dynamics in an industry, identify winners early and then stay invested with superior executors to earn compounding returns
- The AMC focusses on the fundamentals of the business, the quality of management, sensitivity to economic factors and the financial strength of the company

CANARA ROBECO CONSUMER TRENDS FUND

Thematic - Consumption & Finance - An open ended equity scheme following the consumption and financial theme

❑ Benefit from the “India Growth Story”

- Designed to benefit from demographic advantage of “**YOUNG INDIA**” for the next decade and the rapid urbanization and evolution of the cities

❑ Theme to Team with

- The fund identifies themes like changing consumption pattern emerging out of rising middle class and increase in per capita income potential
- Macro-economic fundamentals are slowly stabilizing; Banks & Financial Sector is a beta-play & any improvement in economic fundamentals is likely to benefit this sector
- The Government is believed to be committed towards boosting growth as well as taming inflation. This is on the back of expansion in the middle class consumers and the evolution of the Indian economy from largely informal to formal
