Canara Robeco Investment process

The above is only for general understanding purposes, and should not be construed as CRAMC investment policy, portfolio construction or the performance of the scheme

Stringent Risk management is the Key

Risk control process to manage risks through various tools such as stock limit and sector limit; to ensure that the portfolio liquidity is maintained without compromising on the return

We believe that optimal diversification would help achieve the desired level of consistency in return

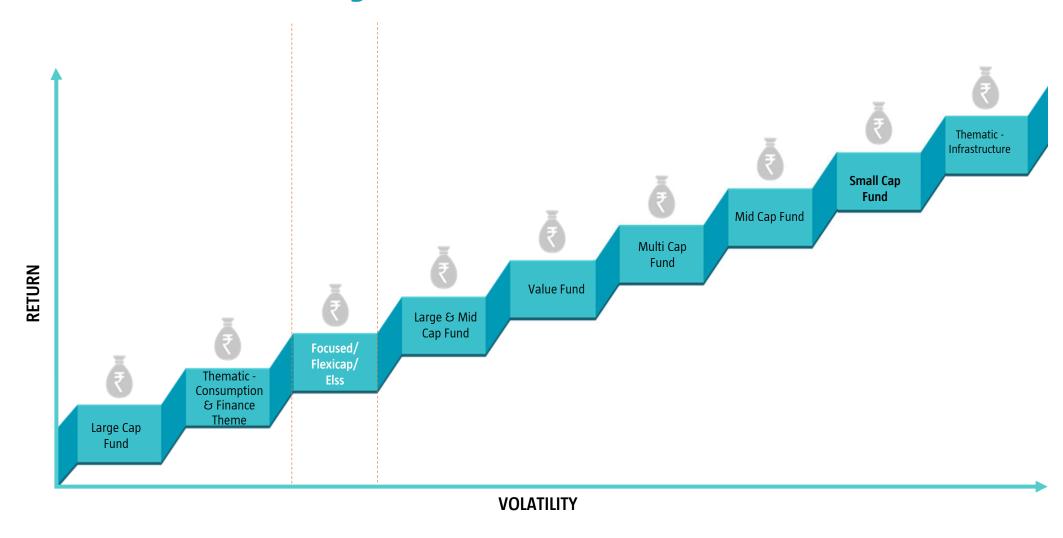

Our aim is to identify securities, which offer favourable risk adjusted returns

With the aim of controlling risks, the investment team will carry out rigorous in-depth analysis of the securities proposed to be invested in – ongoing monitoring

Product Positioning

CANARA ROBECO Note: The fund positioning broadly reflects the category average rolling returns & standard deviation based on 3 year rolling returns taking past 3 years as a time Mutual Fund horizon on a monthly rolling basis. The same was considered since the period captures the returns mainly post SEBI scheme categorization. The data points consider industry peer group average for the different equity categorization except thematic and sector funds, for which CRMF fund data has been considered.

Who should Invest in this fund?

Investors looking to invest in Focused Portfolio as a part of their Asset Allocation

Investors with a long-term investment horizon of 5 years and above.

CANARA ROBECO
FOCUSED EQUITY
FUND

Investors having relatively higher risk appetite and willing to take exposure to equities

Investors seeking potential higher returns with with ability to with-stand higher volatility

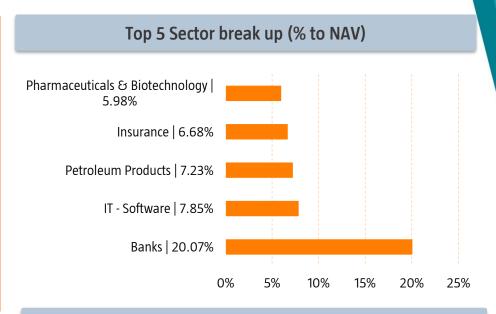

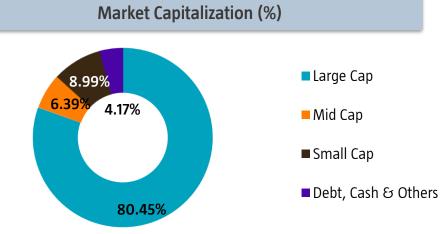

Note: Investors shall note that there is no assurance or guarantee that the investment objective of the scheme will be achieved.
