Less than 1 year on Simple Annualized basis & more than 1 year on CAGR basis

- A trigger is an event, on occurring of which the Scheme will automatically switch units on behalf of the investor on the date of happening of the event
- A TAP trigger facility will automatically switch units on behalf of the investor on achieving the targeted appreciation in % (such as 20%) as opted by the investor at the time of investment
- This switch as selected by the investor shall be only to the extent of the increase in value
- The trigger will only be executed in case of a point-to-point appreciation of the NAV with the TAP that the investor opted for
